Re:

Abstract:
Solicitation for input to the MBWA Study Group meeting in May

Purpose:
Facilitate rapid development of the PAR and Five Criteria for the MBWA project.

Notice:
This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:
The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE’s name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE’s sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

Patent Policy and Procedures:
The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures (Version 1.0) <http://ieee802.org/16/ipr/patents/policy.html>, including the statement “IEEE standards may include the known use of patent(s), including patent applications, if there is technical justification in the opinion of the standards-developing committee and provided the IEEE receives assurance from the patent holder that it will license applicants under reasonable terms and conditions for the purpose of implementing the standard.”

Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <mailto:r.b.marks@ieee.org> as early as possible, in written or electronic form, of any patents (granted or under application) that may cover technology that is under consideration by or has been approved by IEEE 802.16. The Chair will disclose this notification via the IEEE 802.16 web site <http://ieee802.org/16/ipr/patents/notices>.
Call for Contributions:

IEEE 802.16 Study Group on Mobile Broadband Wireless Access

IEEE 802.16 Session #19
20-24 May 2002

During its Session #18, IEEE 802.16 Working Group on Broadband Wireless Access (with the approval of the IEEE 802 LAN MAN Standards Committee) initiated a Study Group on Mobile Broadband Wireless Access Networks. This 802.16 Study Group will meet in conjunction with 802.16’s Session #19 (20-24 May 2002 in Calgary, Alberta, Canada).

This Call for Contributions requests input to further the work of the Study Group. In particular, contributions are solicited on the following topics:

- Content of a Project Authorization Request (PAR) to initiate standardization
- Content of the Five Criteria statement to accompany PAR submission to the IEEE 802 LAN MAN Standards Committee
- Recommendation on placement of the potential standards project within the IEEE 802 LAN MAN Standards Committee

To facilitate exchange of information, an e-mail distribution list will be established.

Contributions will be considered non-confidential and will be posted for public access on the 802.16 Web Site <http://WirelessMAN.org>.

Submit your contribution by the deadline of 7 May 2002 following the instructions at <http://WirelessMAN.org/submit.html>.

For further information, contact either of the following:

- Study Group Chair: Mark Klerer <m.klerer@flarion.com>
- IEEE 802.16 Working Group Chair: Roger Marks <marks@nist.gov>
