Re:	IEEE 802.16 WG Letter Ballot #22	
Abstract	This document announces and details the procedure for IEEE 802.16 Letter Ballot #22, on P802.16k/D1.	
Purpose	To document the process of Letter Ballot #22.	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures < http://ieee802.org/16/ipr/patents/policy.html >, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair < mailto:chair@wirelessman.org > as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site < http://ieee802.org/16/ipr/patents/notices >.	

IEEE 802.16 Working Group Letter Ballot #22

1. Introduction

This announcement opens IEEE 802.16's Letter Ballot #22, on the question:

To forward IEEE P802.16k/D1 <<http://ieee802.org/16/pubs/80216k.html>> for LMSC Sponsor Ballot.

Ballot opening date: **9 June 2006**

Ballot closing date: **9 July 2006**, AOE:

<http://ieee802.org/16/aoe.html>

2. Procedure

To submit a ballot, use the ballot submission form at:

<http://dot16.org/ballot22/ballotform22.html>

2.1 Disapprove Votes

Disapprove votes must include specific "Technical, Binding" comments on what must be done to the comment resolutions to change the vote to "Approve."

2.2 To submit a ballot with comments or to submit comments only

You may submit a ballot with comments (with or without a vote). To submit comments, you must prepare them using the standalone program *Commentary* (version 1.5 or newer). Submission instructions are found in the ballot submission form. *Commentary* is available at:

<http://ieee802.org/16/docs/Commentary>

3. Working Group Letter Ballot Process

3.1 Criteria for Approval

3.1.1 50% Return Rate

The ballot will not be considered successful if less than 50% of the ballot group members return a vote. If this return rate has not been achieved by the specified closing date, the ballot may be extended by the Working Group Chair.

3.1.2 75% Approval Rate

The ballot will not be considered successful unless approved by at least 75% of the ballot group members voting “Approve” or “Disapprove”.

3.1.3 Comment Resolution

The Working Group shall attempt to resolve all comments collected in the ballot process. All substantive technical changes, and all unresolved negative votes, together with the reasons of the negative voter and the rebuttal by the Ballot Resolution Committee, shall be subject to a recirculation ballot of at least fifteen days.

3.1.4 Failed Ballots

Should the approval rate be less than 75%, the motion will be considered disapproved.

3.2 Ballot Group

The Ballot Group for Letter Ballot #22 is provided in Annex A. It includes the individuals who are Members of IEEE 802.16 as of the start of the Letter Ballot.

3.3 Obligation of Working Group Members to Participate in Ballot

The IEEE 802.16 Membership Procedures, which are in accordance with the IEEE Project 802 LAN MAN Standards Committee (LMSC) Operating Rules, specify that Working Group Membership shall be lost if two consecutive, or two of any three consecutive, Working Group Letter Ballots for which the member was eligible are not returned or are returned with an abstention other than for ‘lack of technical expertise.’” Note that participation in the initial round of the ballot is required to fulfill this obligation and to assist the Working Group in meeting the 50% return rate requirement. You may wish to check your voting record from the initial round of recent 802.16 Letter Ballots:

- #20 < <http://ieee802.org/16/netman/ballot20/report20ini.html>>
- #21 < <http://ieee802.org/16/maint/ballot21/report21.html>>.

3.4 Participation by Individuals outside the Ballot Group

Individuals who are not Ballot Group members are welcome to submit ballot comments following the procedure in 2.2.

3.5 Public Release of Individual Ballots

Detailed ballot results will be posted to the IEEE 802.16 Web Site:

< <http://ieee802.org/16/netman/ballot22/report22.html> >.

4. Patent Policy and Procedures

Please take note of the IEEE-SA Patent Policy
