## IEEE 802.16 Working Group on Broadband Wireless Access http://WirelessMAN.org

Dr. Roger B. Marks NextWave Broadband, Inc. 4040 Montview Blvd. Denver, CO 80207 USA mailto:r.b.marks@ieee.org 16 July 2006

## Dear IEEE-SA RevCom:

This submittal is an application for approval of IEEE P802.16-Conformance04/D7 ("Draft Standard for Conformance to IEEE 802.16 - Part 4: Protocol Implementation Conformance Statement (PICS) Proforma for Frequencies below 11 GHz").

The single 15-day recirculation closed on 13 April. The final ballot report shows two remaining Disapprove votes, and I have reported that in my submittal form. However, as noted on the following page, both of those voters have informed me that they wish to be considered as voting Approve.

Attached to this letter, please find the following:

Sincerely,

Roger B. Marks Chair, IEEE 802.16 Working Group on Broadband Wireless Access 200<del>5,</del>07-16 IEEE 802.16-06/038

Roger,

I was on vacation. Sorry, I missed your reminder email. However, I sent you email after last meeting to indicate that I was satisfied with the resolution and would like to change my vote to "Approve".

Regards,

Sean Cai ZTE San Diego, Inc. 10105 Pacific Heights Blvd. Suite 250 San Diego, CA 92121 200<del>5,</del>07-16 IEEE 802.16-06/038

To: Herbert Ruck

Dear Herbert,

I apologize that I wasn't able to participate in the recent recirculation process due to business travel and personal absence.

I also had an off site meeting yesterday because of which I missed both your phone calls. Anyhow, you recalled our conversation in Denver absolutely correct – but here it is in writing:

My preferred solution for #7 is:

Section p.24, line 17 (section A.5.2.3.2.4 Uplink scheduling services, Table A.28 )

Below the table add sentence:

At least one of the above scheduling services must be supported.

Section p.44, line 17, (section A.5.3.3.2.4 Uplink scheduling services, Table A.72)

Below the table add sentence:

At least one of the above scheduling services must be supported

The above line numbers, etc refer to IEEE P802.16/Conformance04/D7.

#### NOTF:

I am not sure whether this is possible at this point but I would like to officially change my vote from "Disapprove" to "Approve", with comment #7 remaining as "Editorial" only. This reflects that the changes that were already implemented in D7 (i.e all service types optional) were satisfying even if not absolutely complete w.r.t. to our discussion about this issue. I hope this resolves your problem in bringing this project to a closing. If not please feel free to contact me again to instruct me how to do so. I will not be attending the Tel Aviv meeting and therefore would like to thank you at this point for doing this thorough job - Good work !

Best regards,

Rainer

Re: P802.16/Conformance04 - Standard for Conformance to IEEE 802.16 - Part 4: Protocol Implementation Conformance Statement (PICS) Proforma for Frequencies below 11 GHz.

#### Dear Paul:

I am pleased to inform you that on 25 March 2004 the IEEE-SA Standards Board approved the above referenced project until 31 December 2008. A copy of the file can be found on our website at <a href="http://standards.ieee.org/board/nes/projects/802-16\_Conformance04">http://standards.ieee.org/board/nes/projects/802-16\_Conformance04</a>.

Now that your project has been approved, please forward a roster of participants involved in the development of this project. This request is in accordance with the IEEE-SA Operations Manual, Clause 5.1.2i under Duties of the Sponsor which states:

"Submit annually to the IEEE Standards Department an electronic roster of individuals participating on standards projects"

For your convenience, an Excel spreadsheet for your use has been posted on our website at <a href="http://standards.ieee.org/guides/par/roster.xls">http://standards.ieee.org/guides/par/roster.xls</a>. Please forward this list to me via e-mail at <a href="j.haasz@ieee.org">j.haasz@ieee.org</a> no later than 23 June 2004.

Please visit our website, IEEE Standards Development Online

(<a href="http://standards.ieee.org/resources/development/index.html">http://standards.ieee.org/resources/development/index.html</a>), for tools, forms and training to assist you in the standards development process. Also, we strongly recommend that a copy of your draft be sent to this office for review prior to the final vote by the working group to allow for a quick review by editorial staff before sponsor balloting begins.

If you should have any further questions, please contact me at 732-562-6367 or by email at j.haasz@ieee.org.

11. The Type of ballot is: Individual Sponsor Ballot

**Expected Date of Submission for Initial Sponsor Ballot: 2004-07-23** 

#### 12. Fill in Projected Completion Date for Submittal to RevCom: 2004-11-25

Explanation for Modified PAR that completion date is being extended past the original four-year life of the PAR:

#### 13. Scope of Proposed Project:

This standard represents the Protocol Implementation Conformance Statement (PICS) Proforma, per ISO/IEC Standard 9646-7 (1995) and ITU-T X.296, for conformance specification of base stations and subscriber stations based upon the air interface specified in IEEE P802.16-REVd for frequencies below 11 GHz.

#### Is the completion of this document contingent upon the completion of another document? Yes

The standard will relate to conformance to the 2004 revision of IEEE Std 802.16. Work under the PAR can progress based on the draft but cannot be completed until the revision is complete. However, the draft revision (P802.16-REVd) is currently in Sponsor Ballot, and completion is expected soon.

#### 14. Purpose of Proposed Project:

This document describes the capabilities and options within the air interface specified for frequencies below 11 GHz in IEEE P802.16-REVd. It is to be completed by the supplier of a product claiming to implement the protocol. It indicates which capabilities and options have been implemented. It allows a user of the product to evaluate its conformance and to determine whether the product meets the user's requirements.

#### 14a. Reason for the standardization project:

#### 15. Intellectual Property:

Has the sponsor reviewed the IEEE patent policy with the working group? Yes

Is the sponsor aware of copyrights relevant to this project? Yes

Is the sponsor aware of trademarks relevant to this project? No

Is the sponsor aware of possible registration of objects or numbers due to this project? No

16. Are there other documents or projects with a similar scope? No

**Similar Scope Project Information:** 

## 17. Is there potential for this document (in part or in whole) to be adopted by another national , regional or international organization? No

If yes, please answer the following questions:

Which International Organization/Committee?

**International Contact** 

**Information?** 

# 18. If the project will result in any health, safety, or environmental guidance that affects or applies to human health or safety, please explain in five sentences or less.

#### 19. Additional Explanatory Notes: (Item Number and Explanation)

The standard may include access to an electronic form that will produce data transferable to another party. The standard will include permission to print completed hard copies of the form for documentation purposes.
