08 December 2006

Dear P802.16k Balloting Group:

Thank you for your participation in the Sponsor Ballot of P802.16k/D3, which ran from 27 October to 11 November 2006.

In its scheduled session of 13-16 November 2006, the IEEE 802.16 Working Group met and addressed the comments received. We have uploaded the resolutions, along with the editor's implementation notes, to the IEEE-SA myBallot system.

The summary results, including changes reported following comment resolution, are 129 Approve, 3 Disapprove, and 10 Abstain. This satisfies the numerical conditions for approval.

We are requesting that the IEEE Balloting Center initiate a fifteen-day recirculation of the new draft P802.16k/D4 (file *P80216k_D4.pdf*).

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote. If you do not respond to this recirculation ballot, your last vote will be carried forward. Also, as this is a recirculation ballot, a change to "do not approve" (i.e., a negative vote) with comments shall be based only on the changed portions of the balloted document, clauses affected by the changes, or portions of the balloted document that are the subject of the unresolved negative votes.

If you have voted Disapprove, I urge you to review the comment resolutions and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
