

Title: LE Task Group Report - Session #45

Document Number: IEEE 802.16h-06/025r1

Date Submitted: September 28, 2006

Source:

Chair of LE TG: Mariana Goldhamer
ALVARION

Voice:+972 3 645 6241

mariana.goldhamer@alvarion.com

21a HaBarzel Street, Tel Aviv, Israel

Venue:

Session #45, September 25-28, 2006

Base Document:

Purpose:

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

Overview of the week

- Working Group review of the IEEE 802.16h-06/015r1
 - 163 comments
 - 23 contributions addressing specific comments
 - Output database: IEEE 802.16h-06/022r2

Working Group Review – Comment resolution

- Statistics
 - Accepted / accepted modified: 133
 - Rejected: 10
 - Superseded: 12
 - Informational: 8
- Action Items for resolving the rejected comments and other problematic areas
 - C802.16-06/096
 - Action Items and Ad-Hoc groups

Progress Report

- Work concerning coexistence between 802.16 and 802.11
 - Uncoordinated CX (coexistence) Protocol
 - Liaison to 802.11
- Better definition of the regulatory-related elements
 - Specific bands of applicability
 - 4.9GHz - Home-land security
 - 3.65GHz
 - 5GHz
- Protocol for sharing the spectrum with “specific spectrum users”
 - In time, in location, in frequency
 - Can make available more spectrum for BWA licenses
- Consolidation of the CX Control Channel
- Improved structure of the document

First 802.16h draft

- The 802.16h Working Document was significantly improved
- Motion: Adopt the document IEEE 802.16h-06/015r1, as modified by the 802.16h Session#45 database 802.16h-06/022r2, to be the first 802.16h draft and submit it for Working Group Letter Ballot
 - Approved in the LE TG unanimously
 - A motion enabling the WG to approve such motion in this meeting, even with lack of a quorum, was approved at Session 44
