**Deadline: 8 January 2007 AOE**

The IEEE 802.16 Working Group's Letter Ballot #24

<http://ieee802.org/16/le/ballot24/report24.html>

reviewed the draft IEEE P802.16h/D1 <<http://ieee802.org/16/pubs/80216h.html>> on "Improved Coexistence Mechanisms for License-Exempt Operation."

The ballot was conducted from 11 October - 10 November 2006. The Working Group's License-Exempt (LE) Task Group <<http://ieee802.org/16/le>> proceeded with comment resolution at the Working Group's Session #46, in an attempt to bring the approval ratio above the 75% minimum required for approval.

During the ballot, 551 unique comments were received. The comment database, including the resolutions developed at Session #46, is posted:

[http://ieee802.org/16/docs/06/80216-06\\_068r2.zip](http://ieee802.org/16/docs/06/80216-06_068r2.zip)

However insufficient time was available for resolution of all comments, during Session #46. Therefore, the LE TG decided to proceed with further comment resolution at Session #47:
