Date: April 10, 2003

Dear Mr Stanziola,

Thank you for your letter from February 26th, with regards to IEEE copyright permission for IEEE Standard 802.16-2002 and IEEE Standard 802.16a-2003.

We would like to express our appreciation for your timely permission to allow ETSI BRAN to include up to 10% of the aforementioned IEEE standards in the BRAN HIPERMAN standard, parts of which we plan to publish in the July time-frame.

We are confident that the portion of the aforementioned IEEE standards similar or identical to that in the HIPERMAN standard, not submitted to both our organisations by the same member companies respectively employees of these companies, constitutes substantially less than the 10% you have generously granted us.

We will ensure that proper acknowledgement for the excerpted portion is included in every published part of the HIPERMAN standard.

Best regards,

Bernd Friedrichs
BRAN Chairman
