Venue:

San Francisco, Session #38

Base Document:

Purpose:

IEEE802.21 report to IEEE802.16

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

802.21 Update

- Summary of Completed Work
 - Requirements completed
 - Call for Proposals
 - Contribution accepted and evaluated by the WG
 - A single harmonized draft proposal accepted by the WG to be the baseline draft
 - Draft Specification version P802-21-D00.01 – confirmed by a WG vote of 25-1-1

802.21 Update

- Contributions were presented and discussed
 - Editorial
 - Technical
 - Resolution is deferred until the September interim.
 - 802.16e HO MAC Management messages and its mapping with the 802.21 MIH services
 - Related work with IETF submission
(draft-jang-mipshop-fh80216e-00)
- One Ad hoc was formed to discuss MIH Communication Model (Wed. 7:00~9:00 PM)
- Discussion on L2 vs. L3 Transport for MIH Services

802.21 Update

- 4 Media Specific Ad hoc Groups are formed to make requirements for media specific standardization group
 - L2 Requirement for 802.11
 - L2 Requirement for 802.3/ 802.16
 - Higher Layer requirement for IETF
 - Liaison package development for 3GPP/3GPP2
- Comment/Contribution Submission for future sessions
 - Decide to use Commentary tool
- Securing the working Draft
 - Will be secured by password and made accessible with other WG's password

Future Sessions

- Interim: September 18th – 23rd, Hyatt Regency
– Orange County, CA, USA. Meeting co-located with 802.11/15/18/19/20/22
- Plenary: November 13th – 18th, Hyatt Regency
– Vancouver, BC, Canada. Co-located with all 802 groups
- Interim: January 15th – 20th, Hilton Waikoloa Village
– Big Island, HI USA. Meeting co-located with 802.11/15/18/19/20/22
- Plenary: March 12th – 17th, Hyatt Regency
– New Orleans, LA, USA. Co-located with all 802 groups
