To: "Roger B. Marks" <r.b.marks@ieee.org>

Dear Roger,

In response to our discussions and the IEEE 802.16 Working Group's inquiry (IEEE L802.16-07/065) regarding a mutual liaison relationship, I am pleased to confirm that the WiMAX Forum considers the possibility of a formal liaison relationship between IEEE 802.16 and the WiMAX Forum a good idea.

If we were to establish a formal liaison relationship, I believe that we would be helping to remain aligned and facilitate a more structured process to address the areas where we are to focus. Details of these focus areas would be a next step should we agree to moving forward.

I look forward to your response.

Sincerely,

Ron Resnick
President and Chairman, WiMAX Forum
