Venue:

IEEE 802.16 Session #47, London, UK

Base Document:

IEEE C802.16j-07/058 [http://dot16.org/CSUpload//upload/Relay\\_db/C80216j-07\\_058.pdf](http://dot16.org/CSUpload//upload/Relay_db/C80216j-07_058.pdf)

Purpose:

Propose the text regarding MS CDMA-based Bandwidth Request with Non-transparent RS.

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

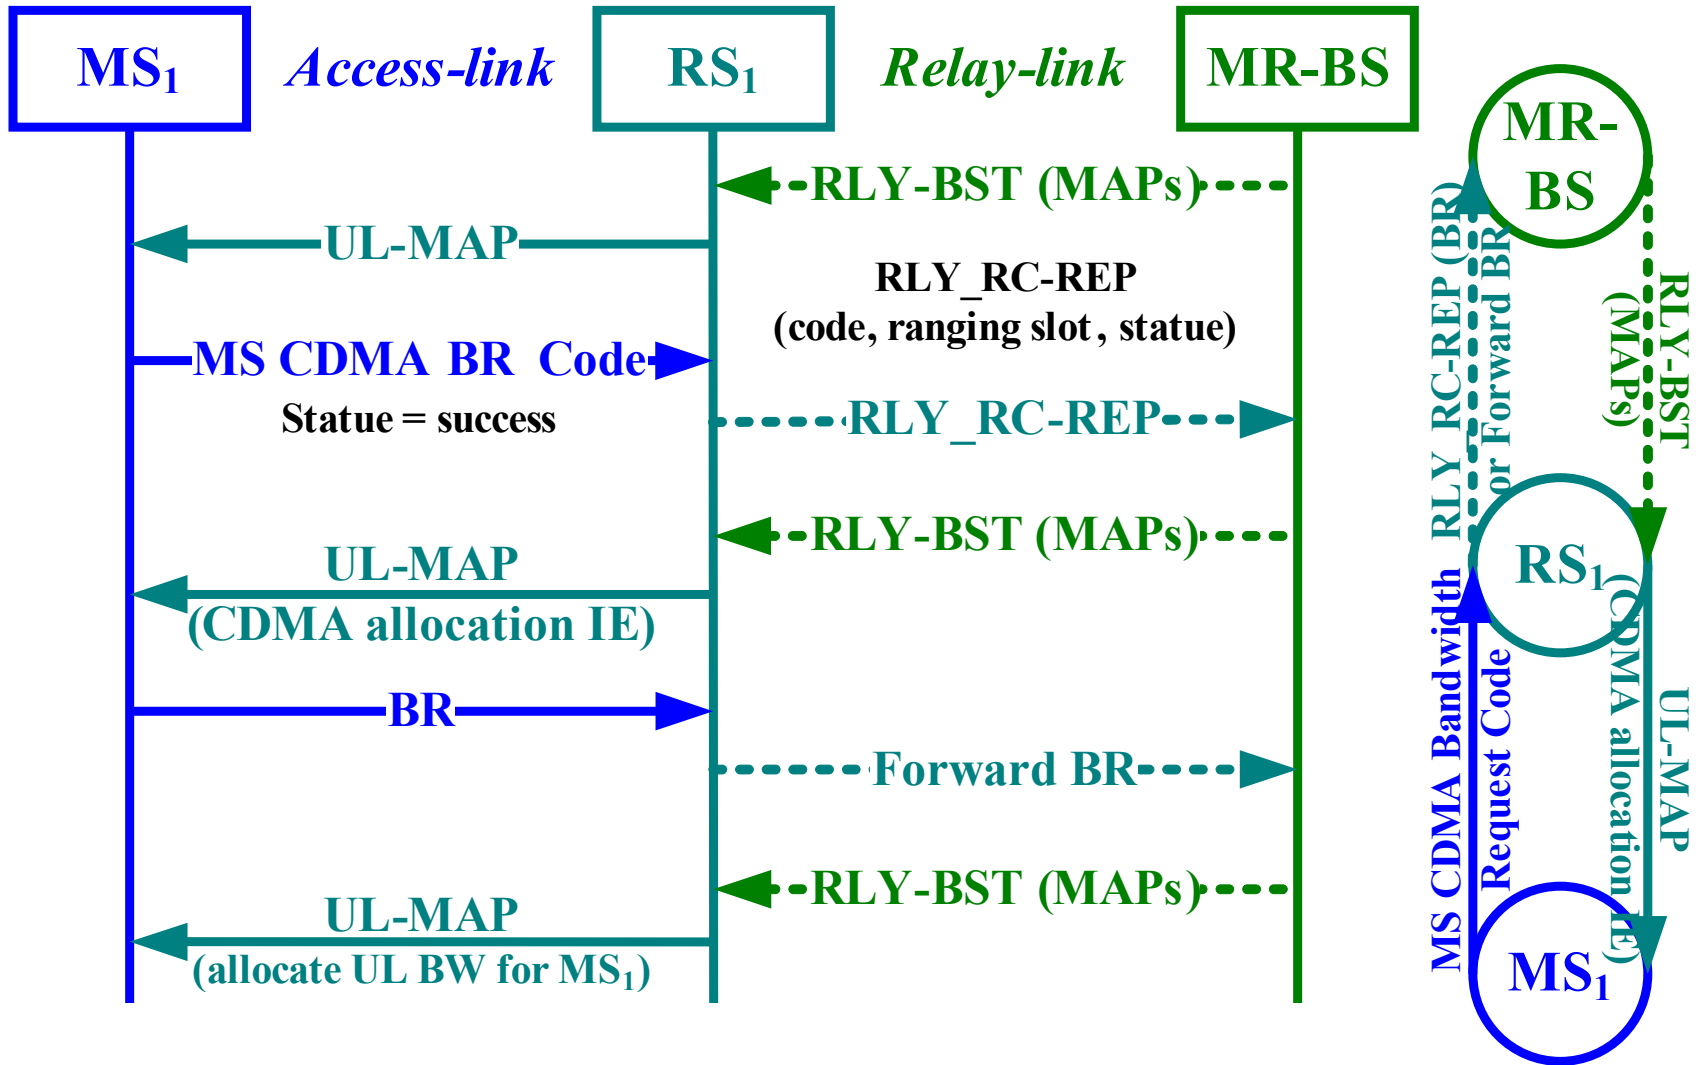

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

# ***Requirements on MS CDMA-based Bandwidth Request with Non-transparent RS***

- The RS shall support MS CDMA-based bandwidth request procedure without any modification on MS
- The MS CDMA-based bandwidth request procedures should be centrally controlled by the MR-BS

# Example of MS CDMA-based Bandwidth Request

# *Summary*

- Propose procedure for MS CDMA-based bandwidth request with non-transparent RS under centralized scheduling scheme
- Define relaying messages in the relay path for completing MS CDMA-based bandwidth request procedure
