Re:	Agenda for TG2 meeting, forming part of IEEE 802.16 meeting in Ottawa, 22-26 January 2001	
Abstract	TG2 Agenda, subject to approval	
Purpose	For information and meeting preparation	
Notice	This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate text contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.	
Patent Policy and Procedures	<p>The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures (Version 1.0) <http://ieee802.org/16/ipr/patents/policy.html>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, if there is technical justification in the opinion of the standards-developing committee and provided the IEEE receives assurance from the patent holder that it will license applicants under reasonable terms and conditions for the purpose of implementing the standard."</p> <p>Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <mailto:r.b.marks@ieee.org> as early as possible, in written or electronic form, of any patents (granted or under application) that may cover technology that is under consideration by or has been approved by IEEE 802.16. The Chair will disclose this notification via the IEEE 802.16 web site <http://ieee802.org/16/ipr/patents/notices>.</p>	

Agenda for TG2 meeting 22-26th January 2001

*Philip Whitehead
Radiant Networks Plc*

- Start 09.30 on Monday 22nd January 2001
- Close before 10.00 on Friday 26th January 2001, ready for plenary.
- Timing of each activity to be decided in the opening session on 22nd January.

1. Approval of agenda
2. Approval of minutes of previous meeting and actions arising
3. Report of progress of Working Group Ballot #2
4. Review of documents for consideration in the meeting
5. Procedure for comment resolution, following recirculation ballot
6. Resolution of outstanding comments from members and observers
7. Consideration of ETSI TM4 comments and possible reply
8. Preparation for final WG recirculation
9. Review of Timeline
10. Preparation for further rounds of comment resolution
11. Review of possible PAR changes/corrections for submission to plenary
12. Approval of “final” draft of the coexistence practice *
13. Preparation of report to plenary
14. New business (if any)
15. Approval of draft minutes

* an output from the meeting should be a new draft document which corresponds exactly with all the resolved comments in the database

** new business is subject to interest from members and input contributions, such as:

- coexistence in 10-23.5 GHz (within present scope, but little work done)
- coexistence in 43.5 – 60 GHz (within present scope, but little work done)
- coexistence with point to point systems (revised PAR would be needed)
- coexistence below 10 G Hz (revised PAR would be needed)

END
