Section 2 Annex G,H,I Summary

David V. James

Summary

- Total of 17 comments against Annex G,H,I
  - 4   Editorial
  - 13 Technicals

- One technical comments unresolved
  - #722 RAH develops multichoke fairness

- Several others may be of special interest
  - #707 CRC details should be normative
  - #714 Scenarios requires distinct annex
  - #720 RAH is requested: informative→normative (on the topic of spatial class-A/B allocations)

Issues Covered – Annex G

- Annex G
  - Clarification of CRC algorithms
  - CRC stomping & protected time-to-live
    (should the baseline CRC be normative?)

- Annex H
  - Should publish incremental upgrades
  - Minor editorial (comment) fixups

- Annex I
  - Misc. editorial (primarily obsolete client interface updates)
  - #707 CRC should become normative
  - #714 for scenarios to become distinct informative annex
  - #720 request for spatial shapers to become normative
  - #722 request to RAH to develop normative multi-choke fairness
