Re:	IEEE 802.20, November 13-18, 2006	
Abstract		
Purpose	Modify 802.20 P&P document to follow the 802 P&P normatively.	
Notice	This document has been prepared to assist the IEEE 802.20 Working Group. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.	
Release	The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.20.	
Patent Policy	The contributor is familiar with IEEE patent policy, as outlined in <a href="#">Section 6.3 of the IEEE-SA Standards Board Operations Manual</a> < <a href="http://standards.ieee.org/guides/opman/sect6.html#6.3">http://standards.ieee.org/guides/opman/sect6.html#6.3</a> > and in <i>Understanding Patent Issues During IEEE Standards Development</i> < <a href="http://standards.ieee.org/board/pat/guide.html">http://standards.ieee.org/board/pat/guide.html</a> >.	

A modification in the 802.20 P&P document is proposed to make the procedures for ballots and comment resolutions to be normative and not informative.

Section 9 (Procedure Section) of the 802.20 WG P&P document; i.e., IEEE 802.20 PD-05, refers to 802 P&P as informative whereas this section shall follow 802 P&P normatively.

It is recommended that the "informative" term on the section title be removed and thereby the section to become normative.
