

What Role Should 4PID Play?

Possible Roles

- L1 4PID used for pre-4P Type 1 and 2 devices only
 - All “new” devices use new class scheme or something else defined in BT
 - New classes for T3 13W etc. will be required
- L1 4PID used for all Type 1/2 devices (Green Power) going forward
 - Only new Type 3 devices >25W use new class scheme
- L1 4PID used for all devices going forward (including T3+)
 - Mandatory for all PSEs to run 4PID check on all PDs
