

Clause 33 - Management function requirements

Info (not part of baseline)

See presentation 802d3bt_law_01_0916.pdf by David Law on rationale.

30.9.1.1 PSE attributes

From Clause 30, subsections 30.9.1.1.2 through 30.9.1.1.11, remove the sentence that starts with “If a Clause 22 MII or Clause 35 GMII is present, then this will map to the ...”.

33 Data Terminal Equipment (DTE) Power via Media Dependent Interface (MDI)

Remove references to section 33.5 as follows:

- page 67, line 43, 49*
- page 68, line 25, 33*

33.2.5 PSE state diagrams

Info (not part of baseline)

Should we also rename the legacy (Type 1+2) variables ? I don't think so: while the mr_ prefix becomes meaningless, these are the names people are used to.

In sections 33.2.5.9 through 33.2.5.12 rename every variable that starts with “mr_” to the same name without the “mr_” prefix.

Remove section 33.5 on management:

~~33.5 Management function requirements~~

~~If the PSE is implemented with...~~
