

**3GPP TSG RAN Meeting #64**  
**Sophia Antipolis, France, June 10 - 13, 2014**

**RP-140999**

**Title:** Reply LS on Areas of Mutual Interest to 802 LMSC and 3GPP  
**Release:**  
**Work Item:**

**Source:** 3GPP TSG RAN  
**To:** IEEE 802 LAN/MAN Standards Committee (LMSC)

**Contact Person:**  
**Name:** Antti Toskala

---

**Overall Description:**

3GPP TSG RAN plenary thanks IEEE 802 LMSC for the interest in the work being carried out in 3GPP. 3GPP TSG RAN also acknowledges the importance of the co-existence between different technologies, as reflected in the several studies done earlier to ensure co-existence between different 3GPP technologies and non-3GPP technologies.

There is increasing interest about the use of LTE in unlicensed spectrum and a workshop among interested companies is taking place on June 13<sup>th</sup>, with the list of documents visible from: [http://webapp.etsi.org/meetingDocuments/ViewDocumentList.asp?MTG\\_Id=31471](http://webapp.etsi.org/meetingDocuments/ViewDocumentList.asp?MTG_Id=31471)

3GPP TSG RAN Plenary has planned to consider approval of study and work items for features targeting Release 13 from RAN #65 onwards (subject to finalization of ongoing Release 12 items).

**Date of Next RAN Plenary Meetings:**

RAN Plenary#65	9-12, September, 2014	Edinburgh, UK
RAN Plenary#66	8-11, December, 2014	Maui, US
