

Industry Connections

David Law, HP
Wael Diab, Broadcom
John D'Ambrosia, Force10 Networks

August 18, 2010

What is Industry Connections?

- ▶ An efficient, economical, safe-harbor environment for building industry consensus and initiating new standards, products and services
 - Addresses the earliest, pre-standards stage of the standards development lifecycle (such as developing shared roadmaps)
 - Provides a fast track to publishing peer-reviewed documents, and producing shared databases, web services and other agreed results
 - Program currently set up to support entity / company participants, opportunity to work with IEEE-SA to define an individual based program.
 - Ownership and oversight of InConx program resides with IEEE-SA Board of Governors (BOG)
- ▶ Example outputs
 - Documents, that are submitted for formal review and publication by IEEE
 - Proposals, that may be submitted as the basis for formal IEEE standards projects
