

# 802.18 RR-TAG Closing Report

- Work planned for this meeting

## Accomplished at This Meeting

- Reviewed oob impact of Globalstar ATC request on 2.4 GHz
  - None noted
- Reviewed FCC NPRM on use of TV “white space”
  - Began drafting comments
- Review potential impact of iDEN on unlicensed portions of the 900 MHz band
  - None noted

## Accomplished at This Meeting

- Joint meeting with 802.11 TGy, 802.16h, 802.19
  - Interesting meeting, much more work needed prior to any further FCC presentations
- Complete response to FCC on 60 GHz issues
  - This must be completed at this meeting

## Active participation is encouraged!

- 802.18 needs consistent participation from all wireless WGs
  - Our charter is to provide balanced representation of the interests of all of the wireless WGs before the FCC and other regulatory bodies
  - Other members of wireless WGs who can attend 802.18 as their primary group, or at least substantially, are also encouraged to participate
  - Remember ... attendance in 802.18 meetings counts towards maintaining your voting rights in your “home WG”
