**Date:** March 14, 2019

Thank you for your liaison SG15–LS176.

We look forward to continued collaboration and participation during the monthly coordination meetings.

We would like to inform you that work on CFM YANG is progressing. The P802.1Qcx project is addressing comments received during the Working Group ballot on draft 1.0 at the March 2019 IEEE 802 Plenary meeting. The next ballot will be a Working Group recirculation ballot.

The YANG modules of the P802.1Qcx project are found in the IEEE branch of the YANG Catalog on GitHub (<https://github.com/YangModels/yang/tree/master/standard/ieee/draft/802.1>).

The IEEE 802.1 holds monthly YANG coordination calls. Please see <https://1.ieee802.org/yangsters/> for more information.

The IEEE 802.1 WG meets next as follows:

- Interim meeting in Salt Lake City, Utah, 20-24 May 2019; and
- Plenary meeting in Vienna, Austria, 14-19 July 2019.

Respectfully submitted,

John Messenger

Acting Chair, Vice-Chair, IEEE 802.1 WG
