Revisit

- Defaults: Choose “administrative override” language
 1. Comment 2: "This leaf does not have a YANG specified default value. The system manufacturer populates this leaf with an appropriate default value."
 2. Comment 60: "This leaf provides the ability for the administrator to override the initial value populated by the system manufacturer."
 - Also revisit the proposed resolution to replace some of the text currently in the description with a reference to 6.6.3.2.
 3. Comment 67: “This leaf permits administrative override of the default value provided by the system.”
- Lists of lists: Comments 3 and 4.
