Date: 18 July 2024

Dear Colleagues,

IEEE 802.1 thanks the Broadband Forum for the information and analysis related to the issues of using YANG at scale. IEEE 802.1 has reviewed your presentation and agrees that the issues are broader than access or optical technologies. IEEE 802.1 also agrees that the center of competence for the YANG scalability issue is in the IETF. Please keep us informed on any progress on this subject between the Broadband Forum and the IETF.

Respectfully submitted,

Glenn Parsons

Chair, IEEE 802.1 Working Group
