Dear Colleagues,

The IEEE 802.1 Working Group appreciates the collaboration between our Working Groups.

While we have a [PAR](#) for IEEE P802.1ASeb “Timing and Synchronization for Time-Sensitive Applications Amendment: Optional Use of Announce”, in the spirit of collaboration and to avoid starting work that could prove redundant or conflicting, we decided not to develop a draft until the IEEE 1588 WG had made progress developing a draft to make Announce optional. In effect, our goal is to base our project on the results of your IEEE P1588h project; therefore, we would appreciate it if you could share the most recent version of the IEEE P1588h draft.

We look forward to maintaining the collaboration between our groups.

Respectfully submitted,
Glenn Parsons
Chair, IEEE 802.1 Working Group
