

IEEE 802.1 January 16-20th, 2028 Interim Offer to Host by Eridu

Collocating with 802.3

Destination – San Diego, CA

San Diego offers a world-class destination for IEEE members — celebrated for its year-round pleasant climate, vibrant tech and engineering community, and proximity to major international airports. The city blends professional amenities with outstanding dining, culture, and coastal recreation.

Airport Proximity

San Diego International Airport (SAN) is conveniently located near downtown, offering direct flights to several major international hubs including Munich, Tokyo and London

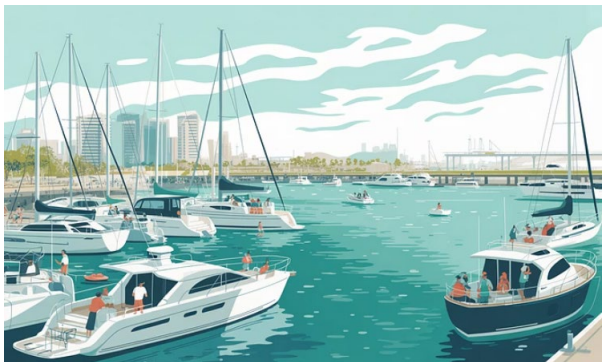

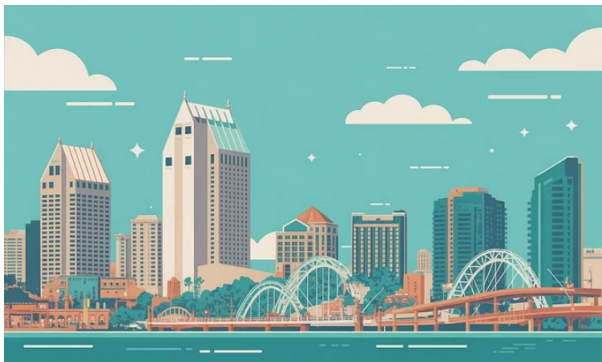

Effortless Transportation

San Diego boasts an efficient public transportation system, including complimentary shuttles, making it easy to navigate the city. Ride-sharing services and taxis are also readily available.

World-Class Amenities

From luxurious hotels to diverse dining experiences and vibrant cultural attractions, San Diego provides all the amenities necessary for a comfortable and enjoyable stay.

Room Rates —

Room Rate US \$219 / night + \$30 resort fee
