Reference: Standards Recommendation Relating to Technology Being Proposed by  
NEC Corporation for Inclusion in the IEEE P802.11a Standards Projects

Dear Mr. Hayes:

This letter is to confirm to the IEEE that NEC Corporation ("NEC") will provide licenses for its patents with respect to the referenced proposals. In this regard:

NEC hereby declares that although no search has been conducted, it is prepared to negotiate licenses under its existing patents directed to and necessary for the practice of the referenced technology, if NEC's proposals are adopted by the IEEE, on fair, reasonable and non-discriminatory terms and conditions to qualified applicants in accordance with the IEEE Patent Policy. Such negotiations will be held with the parties concerned and will be performed outside of the IEEE. Such negotiations will also be subject to the condition that if a potential licensee owns or controls patent rights, the potential licensee covenants to grant NEC licenses under these patents on fair, reasonable and non-discriminatory terms and conditions.

This letter does not grant any right to the IEEE with respect to NEC's copyrights or other intellectual property rights that cover contributions to the proposed standard, other than provided above. However, any party interested in the license described above may contact the undersigned in writing at the address on the letterhead, by phone on +81 3 3798 8420, or by facsimile on +81 3 3456 4903.

Very truly yours,

Naoki Kyomoto  
General Manager  
Intellectual Property Division
