Dear IEEE 802.11 member,

This letter is to confirm that Lucent Technologies Microelectronics Group plans to offer for sale the in IEEE 802.11 proposed Orthogonal Frequency Division Modulation (OFDM) chip via their normal distribution channels, once it has been adopted by the IEEE committee as a standard. Lucent Microelectronics Group also plans to offer for sale the in IEEE 802.11 accepted Media Access Control (MAC) chip.

Both chips will be made available at fair and competitive market prices.

Any interested party may contact Bob Rango, General Manager New Market Development, at Lucent Microelectronics on 714-890-4110.

Yours very truly,
