Reference: Standards Recommendation Relating to Technology Being Proposed by Lucent Technologies and Harris Semiconductor for Inclusion in the IEEE P802.11b (Multicode) Standards Project.

Dear Mr. Hayes:

This letter is to confirm to the IEEE that Wi-LAN Inc. will provide licenses for our patents with respect to the referenced proposals. In this regard, Wi-LAN Inc. hereby declares that although no search has been conducted, it is prepared to license its existing patents directed to and necessary for the practice of the referenced Multicode Technology, if Lucent and Harris' proposals are adopted by the IEEE, on fair, reasonable and non-discriminatory terms and conditions to qualified applicants in accordance with the IEEE Patent Policy. Such negotiations will be held with the parties concerned and will be performed outside of the IEEE. Such negotiations will also be subject to the condition that if a potential licensee owns or controls patent rights, the potential licensee covenants to grant Wi-LAN licenses under these patents on fair, reasonable and non-discriminatory terms and conditions.

This letter does not grant any right to the IEEE with respect to the company's copyrights or other intellectual property rights that cover contributions to the proposed standard, other than provided above. However, any party interested in the license described above may contact Hatim Zaghoul in writing at the address on the letterhead, by phone on 403-273-9133 or, by facsimile on 403-273-5100.

Yours Truly,

Hatim Zaghoul
President and CEO
