12 September 2005

Dear P802.16e Ballot Group:

Thank you for your participation in the Sponsor Ballot Recirculation of P802.16e/D10, which ran from 11-26 August 2005.

Comments were received, and resolutions were reviewed during the IEEE 802.16 Working Group's session on 12 September 2005. Some changes were made to the draft. At this time, we are requesting that the IEEE Balloting Center initiate a fifteen-day recirculation of the new draft P802.16e/D11 (file *P80216e_D11.pdf*). For a complete list of changes from the latest recirculation, please see the document IEEE 802.16-05/064r4 (file *80216-05_064r4changes.xls*). In some cases, the comments and resolutions refer to document numbers of the form C802.16e-05/ijk. These documents are available at <<http://ieee802.org/16/tge>>. This ballot is being conducted under the procedure for conditional approval of the LMSC Policies and Procedures <<http://ieee802.org/policies-and-procedures.pdf>>.

While we received Disapprove comments from two voters, all new comments were resolved to the satisfaction of the voter (as was the case in the previous recirculation). For a complete set of the seven remaining unresolved Disapprove comments from earlier recirculations, please see the hyperlinked document [IEEE 802.16-05/058r1](#). A list of the Disapprove voters, accounting for those who have informed us of their intent to change the vote, is included as an Annex to this letter.

Please take this opportunity to review the material. You are not obligated to reply; if you do not, your current vote will stand. Based on the changes to the draft or on the Disapprove comments and responses, you may change your vote and/or submit additional comments. If you wish to re-vote or comment, please keep the deadline in mind. Instructions have been provided by the IEEE Balloting Center.

If you have voted Disapprove, I urge you to review the comment resolution and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access

Annex: Disapprove Voters

David Castelow*
Rémi Chayer
Brian Kiernan
Greg Phillips
Dorothy Stanley

*Previously emailed an intent to switch from Disapprove stance, but did not submit appropriate followup ballot.
