

IEEE 802.16 Working Group on Broadband Wireless Access

<http://WirelessMAN.org>

Roger B. Marks
Chair, IEEE 802.16 Working Group
r.b.marks@ieee.org
7 August 2009

Dear P802.16h Balloting Group:

Thank you for your participation in the recirculation of P802.16h/D9, which ran from 10-25 April 2009. Prior to comment resolution, the numerical results were 100 Approve, 8 Disapprove with Comment, and 5 Abstain. This satisfies the numerical conditions for approval. These numbers do not consider any possible changes in vote as a result of comment resolution.

Comments were resolved by the IEEE 802.16 Working Group during its Session #62 in July. We have uploaded the resolutions to the IEEE-SA myBallot system. We have posted the full documentation regarding the resolution of these comments, along with the editor's implementation notes, in the document IEEE 802.16-09/0031r3 at http://ieee802.org/16/docs/#09_0031; here the myBallot comments are numbered B1-B65, corresponding to the myBallot numbers. Additional comments submitted directly to the Working Group (and not associated with a Disapprove vote) are numbered A30001-A30009. Note that some comment resolutions refer to documents contributed directly to the 802.16 Working Group. These are available at <http://ieee802.org/16/le#contrib>.

We are requesting that the IEEE Balloting Center initiate a recirculation of the new draft P802.16h/D10. For your reference, we are also including file *P80216h_D10delta.pdf* indicating the changes with respect to draft D9. The baseline for the amendment is IEEE Std 802.16-2009, as amended by IEEE Std 802.16j-2009. We are providing both of these documents to you for your reference.

Please take this opportunity to review the material. Since this is a recirculation ballot, you need respond only if you wish to change your initial vote or submit additional comments within scope of the recirculation. No comment will be considered as a valid element of a Disapprove vote unless the voter enters it into the myBallot database and designates is appropriately.

If you have voted Disapprove, I urge you to review the comment resolutions and let us know which, if any, of your comments have been satisfactorily resolved. If you choose to cast an Approve vote, we will assume that all of them are resolved to your satisfaction.

Sincerely,

Roger Marks
Chair, IEEE 802.16 Working Group on Broadband Wireless Access
