

Title: IEEE 802.16 LE TG Report - Session #35

Document Number: IEEE 802.16h-05/005r2

Date Submitted: January 27, 2005

Source:

Chair of LE TG: Mariana Goldhamer

Voice: +972 3 645 6241

ALVARION

21a HaBarzel Street, Tel Aviv, Israel

Venue:

Session #35, 24-27 Jan 2005

Base Document:

Purpose:

Notice:

This document has been prepared to assist IEEE 802.16. It is offered as a basis for discussion and is not binding on the contributing individual(s) or organization(s). The material in this document is subject to change in form and content after further study. The contributor(s) reserve(s) the right to add, amend or withdraw material contained herein.

Release:

The contributor grants a free, irrevocable license to the IEEE to incorporate material contained in this contribution, and any modifications thereof, in the creation of an IEEE Standards publication; to copyright in the IEEE's name any IEEE Standards publication even though it may include portions of this contribution; and at the IEEE's sole discretion to permit others to reproduce in whole or in part the resulting IEEE Standards publication. The contributor also acknowledges and accepts that this contribution may be made public by IEEE 802.16.

IEEE 802.16 Patent Policy:

The contributor is familiar with the IEEE 802.16 Patent Policy and Procedures <<http://ieee802.org/16/ipr/patents/policy.html>>, including the statement "IEEE standards may include the known use of patent(s), including patent applications, provided the IEEE receives assurance from the patent holder or applicant with respect to patents essential for compliance with both mandatory and optional portions of the standard." Early disclosure to the Working Group of patent information that might be relevant to the standard is essential to reduce the possibility for delays in the development process and increase the likelihood that the draft publication will be approved for publication. Please notify the Chair <<mailto:chair@wirelessman.org>> as early as possible, in written or electronic form, if patented technology (or technology under patent application) might be incorporated into a draft standard being developed within the IEEE 802.16 Working Group. The Chair will disclose this notification via the IEEE 802.16 web site <<http://ieee802.org/16/ipr/patents/notices>>.

IEEE 802.16 LE TG activity

- 20 participants
- 3 Input contributions
 - IEEE C802.16h-05/01r1
 - Detailed scope
 - IEEE C802.16h-05/02
 - Algorithms for distributed interference control
 - IEEE C802.16h-05/003
 - Coexistence support in IEEE 802.16-2004
- 3 Output documents

Output Documents

- IEEE 802.16h-05/002 - Initial Table of Contents for IEEE 802.16h
 - To be used as base for the next Call for Contributions
 - Concepts
 - Common policies for Shared Radio Resource Management
 - ACS,DFS adaptive channel/dynamic frequency selection
 - Algorithms for distributed power control and scheduling
 - Inter-system communication
 - Messages
 - Common Management System

Output documents - cont

- IEEE 802.16h-05/003r1 – Detailed Scope
 - Scope: according to the PAR
 - Applicability
 - Un-coordinated frequency operation in all bands in which 802.16-2004 is applicable, including bands allowing shared services
- IEEE 802.16h-05/004
 - Minutes
