

TG2 Session#20 closing report

- All simulations for PP, 3.5 GHz and 10.5 GHz systems completed and results agreed.
- No contributions for 2.5GHz – propose not to include 2.5GHz issues in the amended Recommended Practice (needs PAR amendment – see **MOTION 1 – to submit the revised PAR IEEE 802.16-02/31**)
- Substantial editing in session #20 has led to a complete draft of the amendment to the Recommended Practice (on the server – approx. 210 pages).
- TG2 seeks agreement to start WG letter ballot – see **MOTION 2**
- Draft minutes are available (on server)
