

## **Task Group Review of IEEE 802.16e-03/07r3 IEEE 802.16 Task Group e**

**Deadline: 4 September 2003**

Task Group e (on “Mobile Wireless MAN”) of the IEEE 802.16 Working Group on Broadband Wireless Access has developed a working document (IEEE 802.16e-03/07r3) constructed as an amendment to the baseline IEEE 802.16 Standard, as previously amended by IEEE 802.16a and 802.16c. The working document is based on submitted contributions, with refinement to follow.

The Task Group is seeking to refine this Working Document in preparation for submission to a Working Group Letter Ballot, planned for November 2003. This Task Group Review invites comments on IEEE 802.16e-03/07r3 for consideration at Session #27 (8-11 September 2003 at the Denver Marriott City Center, Denver, CO, USA).

Commenters are encouraged to be thorough and concise. Comments must identify specific concerns or areas to address and should propose specific text changes to the Working Document. It should be noted that the Task Group Chair has specifically requested that contributors/commenters provide performance data, either actual or simulated, in support of proposed changes.

To submit comments (with or without an associated contribution), use the standalone program *Commentary* (version 1.5 or higher). *Commentary* is available at: <<http://ieee802.org/16/docs/Commentary>>. **Please submit comments by e-mailing them to <[ballot16e@wirelessman.org](mailto:ballot16e@wirelessman.org)> by the deadline of 4 September 2003 (Note: this is different from the process used in earlier Task Group Reviews).**

Contributions (associated with comments or not) should use Task Group e contribution numbering and are subject to the same deadline. They should be uploaded to the TGE upload directory at <<http://tge.wirelessman.org>> following the instructions at <<http://wirelessman.org/submit.html>>

Comments and contributions will be posted to the 802.16 Web Site.
