Call for Comments on Draft 802.16m Evaluation Methodology Document

Deadline: 9 July 2007 AOE

At IEEE 802.16 Session #49 in May 2007, Task Group m reviewed a contribution toward an initial draft of the Evaluation Methodology and Criteria for the proposed 802.16m Advanced Air Interface, along with related comments. The Task Group did not finish resolving all the comments during the meeting, and the document was not accepted by the Task Group. The Evaluation Ad-Hoc was tasked with resolving the remaining comments, consolidating and harmonizing, where possible, and issuing a new document incorporating comments resolved by the Task Group as well as the new resolutions reached by the Ad-Hoc, for subsequent Task Group Review and potential acceptance at Session #50. The Ad-Hoc has completed its task and provided a revised Evaluation Methodology Document draft

<<u>http://ieee802.org/16/tgm/contrib/C80216m-07_080r2.zip</u>> for Task Group review.

Call for Comments

The Task Group now solicits specific comments on this draft Evaluation Methodology Document, for discussion and potential adoption during Session #50 It is desired that, at the end of Session #50, an Evaluation Methodology Document will have been completed and approved by the Task Group.

Submit your comments (with or without associated contributions) by the **deadline of 9** July 2007 AOE following the instructions at <<u>http://dot16.org/Commentary</u>> and <<u>http://ieee802.org/16/submit.html</u>>.

Comments should refer to the "Ballot ID" as "tgmeval" and the "Document under Review" as "IEEE C802.16m-07/080r2".

Contributions should be included only if the Proposed comment text is so substantial as to require the contribution format for appropriate presentation. Any contribution shall be referenced by an appropriate comment. *Make use of the new IEEE 802.16 Document Submission Template, Rev. 9 (2007-06-17)* <<u>http://ieee802.org/16/submit.html</u>>. Use the "TGm" upload directory at <<u>http://tgm.wirelessman.org</u>> to post both comments and contributions.

This is not a ballot, so please do not vote to 'Approve' or 'Disapprove' the document. This is a Call for Comments to improve the document and prepare it for eventual adoption by the Task Group.
