IEEE 802.3 Gigabit Ethernet Over Plastic Optical fiber Study Group Conference Call

October 8, 2015

1. Attendees

Name	Employer/Affiliation
Bob Grow	Independent
Carlos Pardo	KD POF
Eugene Dai	Cox
Josef Faller	HomeFiber
Naoshi Serizawa	Yazaki
Satoshi Takahashi	POF Promotion
Shigeru Kobayashi	TE
Takayuki Tajima	Yazaki
Thomas Lichtenegger:	
Yoshihiro Tsukamoto	Mitsubishi Rayon
Yuki Hayoto	Sumitomo

2. Agenda

- **Discuss tutorial materials**

3. Notes:

During the call we had reviewed the following presentations

- Carla "Technical and Economic Feasibility"
- Eugene "Home networking bandwidth needs and POF"
- Josef "GEPOF for more connectivity, more flexibility"

Although we extended the conference time we still hadn't have time to review the contributions from Naoshi Serizawa, Yazaki & Shigeru Kobayashi from TE. We'll review these contributions at next call.

We expect the efforts on consolidating the materials in order to fit into the 75 minutes time for presentation (15 minutes for Q&A).
