

802.3 BWA Part II D1.0 Comment Resolution Agenda

Tom Issenhuth, Huawei, BWA Part II Chief Editor

IEEE 802.3 NEA Ad Hoc, Geneva, January 2020

Comment Resolution Process

Resolve comments against Draft 1.0

- Any presentations associated with comments will be reviewed during comment resolution session.
- T and TRs will be treated with same status, no signoff is required
- E and ERs will be treated with same status, no signoff is required

If there is no disagreement on the final proposed response the comment will be closed as proposed.

If there is disagreement, a straw poll on the area of concern will be taken and the majority position will decide the final response.

- The commenter is not allowed to disagree.
- If the straw poll contains more than 2 choices, the choice with the lowest number of supporters will be removed. This process will continue until there are only 2 choices.

Editors have identified non-controversial comments as candidates for a bucket motion.

- The initial list of comments for the bucket motion is on slide 6 (also marked “Bucket” in comments file), please review this and ask for a comment to be taken off the list if you don’t agree with the proposed response.
- These comments will not be reviewed individually, but will be resolved as proposed via a single motion
