

# CU4HDD SG/TF Architecture Ad Hoc Report

Yong Kim, Broadcom  
2016-01-20

# Goals of Architecture ad hoc meetings

---

## Charter:

- The charter of the 2.5G/5G Ethernet Backplane and Copper Task Force Architecture Ad Hoc is to discuss the different areas of work (RS/PCS/FEC/PMDs/AN/EEE) that will fall under the work of the task force and to prepare content, and contributions towards the project goal of developing standard.

# Architecture Ad Hoc Calls

---

- 3 meeting after November interim.
- Materials posted @ usual path (appended to SG area)  
<http://www.ieee802.org/3/CU4HDDSG/public/archadhoc/>
  - Good balance of 802.3 voters and new storage-centric colleagues.
- Intent to re-start the call between this Interim and March 2016 plenary.

---

# Thank You!
