Unapproved Minutes

IEEE P802.3ck 100 Gb/s, 200 Gb/s and 400 Gb/s Electrical Interfaces Task Force

Telephonic series for January/February 2022 Meeting:
January 25, January 26, February 1, February 2, February 15, February 16,
February 22, and February 23, 2022
Online Meeting

Prepared by Kent Lusted and Beth Kochuparambil

Table of Contents

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – January 25, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Proposed Agenda:
- Approval of the Agenda
- IEEE Participation Requirements reminder
- IEEE Copyright reminder
- IEEE Patent Policy reminder
- Task Force Status
- Comment Agenda
- Comment Resolution

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:35 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair.
(Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_01a_0122.pdf

Chair noted that the agenda would cover 25 and 26 January.

Chair reminded participants that Task Force attendance would be taken from the webex logs.

The chair reminded participants to indicate full names and employer/affiliation correctly for the meeting minutes. Reminded participants to mute lines when not speaking and reviewed the steps to unmute.

Chair asked if there was objection to approving the shown agenda.   No one responded. The agenda was approved.

Chair reviewed the slide with the Participation requirements. Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides. Chair asked if anyone participating had not read the patent slide set – no one

responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair reminded participants to build consensus offline in order to progress comment resolution.

Chair noted that late presentations should have multiple supporters or collaborators for the purpose of showing offline consensus that developed since comment submission.

Chair noted late presentations were received from Piers Dawe, Rich Mellitz (2), and Adee Ran (2). The presentations were posted to the website. (see: https://www.ieee802.org/3/ck/public/22_01/index.html)

Chair noted that broad recognition of an issue needs due consideration by the TF. She noted the need to get changes into D3.1 to minimize impact to the timeline.   Chair noted that some topics on the comment agenda were deferred and were noted accordingly in the comment agenda.

Chair asked if there was objection to taking the bucket motion before the comment agenda. No one responded. Agenda was updated.

Chair noted that the editorial team prepared a set of proposed responses to comments deemed non-controversial in "bucket1" (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket1.pdf). Chair received requests to pull 3 comments from bucket1 (#i-33, i-165, i-77) prior to the bucket1 deadline.

Motion #1:

Move to:
- Adopt the proposed responses in 8023ck_D3p0_comments_proposed_bucket1.pdf with the exception of comments 33, 165, 77

M: Arthur Marris
S: Shawn Nicholl
Technical (>=75%)
Passed by unanimous consent.

Chair noted that the editorial team prepared a set of proposed responses to comments deemed non-controversial in "bucket2b". It was noted that comments currently collected in the "bucket2b" are to be reviewed by participants and if any of them are to be taken out of the bucket, participants are to notify leadership by Sunday, 30 January, 2022 AOE. (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket2b.pdf)

There was a request to highlight the differences between bucket2 and bucket2b. Vice-Chair noted that the differences were updated responses to i-159, i-155, i-26, i-28, i-219, as noted on the comment report website. (see: https://www.ieee802.org/3/ck/comments/index.html)

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_01b_0122.pdf
- Updated version '01b" with editorial changes.
- It was noted that the comment resolution agenda was subject to change.
- Chief-Editor noted that there was a request to pull comment i-215 from "bucket2b" last week. It was pulled from "bucket2b" and would be addressed during discussion on the related topic.

Comment resolution began.

Jeff Slavick withdrew comment #i-77.

Chair asked if there was objection to hearing the two late presentations from Rich Mellitz. (see: https://www.ieee802.org/3/ck/public/22_01/mellitz_3ck_01_0122.pdf and https://www.ieee802.org/3/ck/public/22_01/mellitz_3ck_02_0122.pdf)

Consensus Discussion Slides - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_01_0122.pdf

Presentation #1:

"Common Mode Comment Recommendations ", Rich Mellitz
See: https://www.ieee802.org/3/ck/public/22_01/mellitz_3ck_01_0122.pdf
- Discussed the V_CM() filter plots on slide 4.
- Discussed the background on the Bessel Thomson filter proposed on slide 4.

Presentation #2:

"Common Mode 3rd Proposal ", Rich Mellitz
See: https://www.ieee802.org/3/ck/public/22_01/mellitz_3ck_02_0122.pdf
- On slide 4, discussed the uncorrelated and correlated elements of the signal.
- There was a request to provide test waveforms to use in the analysis.
- Discussed the effect of host loss and skew on the measurement.

Break at ~8:30 a.m. Resumed at ~8:45 a.m.

Straw Poll #1:

For KR and C2C, I support the AC CM voltage test methodology in mellitz_3ck_01_0122 slides 4 and 5.
(choose one)
A. Yes
B. No
C. abstain
Results: A: 20, B: 4, C: 6
(See comment #i-101)

Chair noted that Straw Poll #1 was a directional straw poll.

Straw Poll #2:

For KR and C2C, I support V_CMPP_LF value of:
A. 30 mV
B. 60 mV
Results: A: 8, B: 15
(See comment #i-101)

Straw Poll #3:

For KR and C2C, I support SCMR_HF value of:
A. 16 dB
B. 15 dB
Results: A: 9, B: 14
(See comment #i-101)

During discussion of Straw Poll #3, it was noted that SCMR is the signal to AC common-mode ratio in dB per Equation 163-2. A smaller number would be higher noise.

Chair noted that editors would use a "closed-as-a-result bucket" for related comments that closed today and were deemed non-controversial. The bucket proposed responses would be adopted with motions later in the meeting series.

During the discussion of AC common-mode for CR and C2M (see comment #i-103), Chief-Editor asked if there was objection to the methodology direction proposed in mellitz_3ck_02_0122, slides 3 and 4. No one responded. The Chief-Editor noted that he would proceed in that direction based on the consensus.

Straw Poll #4:

I support the following value for V_CMPP_HF: (chicago rules)
   A. 80 mV
   B. 100 mV
   C. 120 mV
Results: A: 12, B: 9, C: 8
(See comment #i-103)

Straw Poll #5:

I support the following value for V_CMPP_LF: (chicago rules)
   A. 60 mV
   B. 65 mV
Results: A: 13, B: 11
(See comment #i-103)

Consensus Discussion Slides - Howard Heck

See: https://www.ieee802.org/3/ck/public/22_01/heck_3ck_01a_0122.pdf

Straw Poll #6:

I support P802.3ck specifying multiple CR host types as proposed in comment i-170.
   A. Yes
   B. No
   C. Abstain
Results: A: 11 , B: 11 , C: 5
(see comment #i-170)

During the discussion of the topic "CR Loss budget" (see comment #i-170), the comment resolution group agreed to defer resolution of the comments related to the topic to a future meeting week. Chair and Vice-Chair encouraged participants to review the proposed changes to the draft and build consensus offline.

Chair reminded participants of the start of the next meeting on Wednesday, 26 January. (See: https://www.ieee802.org/3/calendar.html)

Chair noted that comments currently collected in the "bucket2b" are to be reviewed by participants and if any of them are to be taken out of the bucket, participants are to notify leadership by Sunday, 30 January, 2022 AOE. (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket2b.pdf)

Meeting break at ~10:30 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – January 26, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Continue approved agenda from 25 January.

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:30 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair. (Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_01a_0122.pdf

Chair reminded participants that Task Force attendance would be taken from the webex logs.

Chair reminded participants to indicate full names and employer/affiliation correctly for the meeting minutes. Reminded participants to mute lines when not speaking and reviewed the steps to unmute.

Chair reviewed the slide with the Participation requirements. Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides. Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_01b_0122.pdf
- It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Consensus Discussion Slides - Howard Heck

See: https://www.ieee802.org/3/ck/public/22_01/heck_3ck_01b_0122.pdf
- On slide 4, the value for the residual intersymbol interference was incorrect. It was corrected to -31 dB. Updated to version '01b'

There was a request to address the "TX measurement topic" on the comment agenda slide 7 earlier in the agenda due to commenter availability. (see: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_01b_0122.pdf) Chair asked if there were objections. No one objected. The order was changed.

Presentation #3:

"802.3ck waveform measurement BW roll off ", Pavel Zivny
See: https://www.ieee802.org/3/ck/public/22_01/zivny_3ck_01b_0122.pdf
- Discussed the DUT and channel used for the graph on slide 7.
- On slide 7, the value of Np used was 14.

Straw Poll #7:

I support specifying the scope filter response in line with the suggested remedy in comment i-224.
- A. Yes
- B. No

Results: Y: 11, N: 13
(see comment i-224)

It was noted that Straw Poll #7 was a directional straw poll.

During the discussion of comment #i-173, the comment resolution group agreed to defer comments related to the topic to a future meeting week. Chair and Vice-Chair encouraged participants to review the proposed changes and build consensus offline.

Break at ~8:25 a.m. Resumed ~8:42 a.m.

Consensus Discussion Slides - Howard Heck

See: https://www.ieee802.org/3/ck/public/22_01/heck_3ck_01b_0122.pdf

During the discussion of Clause 162 TX j3u topic (see comment #i-156, i-171), the comment resolution group agreed to defer comments related to the topic to a future meeting week.

Chair and Vice-Chair encouraged participants to review the proposed changes and build consensus offline.

Chair noted that the late presentation from Piers Dawe related to comment #i-183 was posted on the Task Force website. (see: https://www.ieee802.org/3/ck/public/22_01/dawe_3ck_05_0122.pdf)   Chair noted that the presentation provided no new data and no co-authors or supporters. Chair reminded participants that late presentations were for the purpose of showing offline consensus that had developed. Chair asked if the Task Force wanted to view the presentation. No one responded. The presentation was not viewed.

Chair noted that comments currently collected in the "bucket2b" are to be reviewed by participants and if any of them are to be taken out of the bucket, participants are to notify leadership by Sunday, 30 January, 2022 AOE. (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket2b.pdf)

Chair reminded participants of the start of the next meeting on Tuesday, 1 February. (See: https://www.ieee802.org/3/calendar.html) The meeting would resume to focus on 120G comments.

Chair reminded participants of the 3 deferred topics and to please watch the email reflector for when those topics would be inserted back into the agenda.

Chair noted that editors would use a "closed-as-a-result bucket" (a.k.a "bucket3") for comments related to closed topics and deemed non-controversial. The bucket3 proposed responses would be announced over the email reflector. Deadline to remove comments from bucket3 was set as Sunday, 30 January 2022 AOE.

Meeting break at ~10:35 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 1, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Proposed Agenda:
- Approval of the Agenda
- Approval of the January 19, 2022 "Ad Hoc" Interim meeting minutes
- IEEE Participation Requirements reminder
- IEEE Copyright reminder
- IEEE Patent Policy reminder
- Task Force Status
- Comment Agenda
- Comment Resolution
    - Resolve bucket3
    - Resolve bucket2b

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~7:00 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair. (Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation, see: https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_03_0122.pdf

Chair noted that the agenda would cover 1 and 2 February.

Chair reminded participants that Task Force attendance would be taken from the webex logs. Chair noted that the attendance for the IEEE 802.3 Working Group would be taken from the IEEE Meeting Attendance Tool.

The chair reminded participants to indicate full names and employer/affiliation correctly for the meeting minutes. Reminded participants to mute lines when not speaking and reviewed the steps to unmute.

Chair asked if there was objection to approving the shown agenda. No one responded. The agenda was approved.

The minutes for the January 19, 2022 "Ad Hoc" Interim meeting were posted to the website. (see: https://www.ieee802.org/3/ck/public/adhoc/jan19_22/minutes_011922_3ck_adhoc.pdf) Chair asked if there were modifications or corrections to the posted minutes. No one responded. Chair asked if there was objection to approving the posted minutes. No one responded. Minutes were approved by unanimous consent.

Chair reviewed the slide with the Participation requirements. Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides. Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair reminded participants of the decorum requirements.

Chair reviewed the next steps for SA Ballot and comment resolution as shown on slide 15 of https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_03_0122.pdf .

Chair noted that the editorial team prepared a set of proposed responses to comments deemed non-controversial in "bucket3" and "bucket2b". (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket3.pdf and https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket2b.pdf)

Chair received requests to pull 4 comments from bucket3 (#i-106, i-104, i-105, i-102) prior to the bucket3 deadline. Chair also received on-time requests to pull the following comments from bucket2b: i-215, i-118, i-228, i-7, i-160, i-161, i-98, i-91, i-92, i-26, i-28, i-30, i-89, i-90, i-138, i-139, i-217. (see: https://www.ieee802.org/3/ck/comments/index.html) Chair noted that the pulled comments would be added to the comment agenda for resolution on the floor.

Motion #2:

Move to:
adopt the proposed responses in
- 8023ck_D3p0_comments_proposed_bucket3.pdf with the exception of comments 106, 104, 105, & 102

- 8023ck_D3p0_comments_proposed_bucket2b.pdf with the exception of comments 215, 118, 228, 7, 160, 161, 98, 91, 92, 26, 28, 30, 89, 90, 138, 139, 217

M: Matt Brown
S: Pavel Zivny
Technical (>=75%)
Results: Motion passed by unanimous consent

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_03_0122.pdf
- It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Consensus Discussion Slides - Matt Brown

Topic of 120G
See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_02_0122.pdf

Vice-Chair reminded participants of decorum.

Straw Poll #8:

I support the following direction of the eye opening specification method: (chicago rules)
- A. weighted window per Draft 3.0 (as is or with some improvements)
- B. revert to uniform weighted window per D2.1 (D3.0 comment #212)
- C. 10pt mask per D3.0 comment #211

Results: A: 31 B: 12 C: 6
(see comment #i-211)

Straw Poll #9:

I support the following direction of the eye opening specification method: (choose one)
- A. weighted window per Draft 3.0 (as is or with some improvements)
- B. revert to uniform weighted window per D2.1 (D3.0 comment #212)
- C. 10pt mask per D3.0 comment #211

Results: A: 27 B: 5, C: 1
(see comment #i-211)

Chair reminded participants of decorum.

Straw Poll #10

To address eye width issues expressed, I support the following method to modify the weighted window: (chicago rules)

    A. No change
    B. "Wider" weighting mask (e.g., larger sigma, alternate distribution shape)
    C. Add jitter specification
    D. Add eye width specification (i.e., per D3.0 comments 107, 108, 115, 116)

Results: A: 26, B: 15, C: 9, D: 9,
(See comment #i-211)

Straw Poll #11

To address eye width issues expressed, I support the following method to modify the weighted window: (choose one)

    A. No change
    B. "Wider" weighting mask (e.g., larger sigma, alternate distribution shape)
    C. Add jitter specification
    D. Add eye width specification (i.e., per D3.0 comments 107, 108, 115, 116)

Results: A: 19, B: 5, C: 3, D: 4
(See comment #i-211)

Break at ~8:35 a.m. Resumed at ~8:45 a.m.

Consensus Discussion Slides - Matt Brown
Topic of 120G
See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_02_0122.pdf

Chair reminded participants of the start of the next meeting on Wednesday, 2 February at 7:00 a.m. Pacific. (See: https://www.ieee802.org/3/calendar.html)

Meeting break at ~10:00 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 2, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Continue approved agenda from 1 February.

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~7:00 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair. (Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_03_0122.pdf

Chair reminded participants that Task Force attendance would be taken from the webex logs.

Chair reviewed the slide with the Participation requirements. Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides. Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair reminded participants of the decorum requirements for the meeting.

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_04_0122.pdf
- It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Consensus Discussion Slides - Matt Brown

Topic of 120G

See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_02b_0122.pdf
- Changes were made and saved as version '02b'

Break at ~8:33 a.m. Resumed ~8:40 a.m.

During the discussion of comment #i-71, the comment resolution group agreed to defer comments related to the topic to a future meeting week. Vice-Chair encouraged participants to review the proposed changes and build consensus offline.

Straw Poll #12:

I support reducing the pattern generator reference architecture to have 2 precursor taps instead of 3.
- Yes
- No

Results: Y: 7 , N: 21
(see comment #i-192)

Chair noted that editors would use a "closed-as-a-result bucket" (a.k.a "bucket4") for comments related to closed topics and deemed non-controversial. The bucket4 proposed responses would be announced over the email reflector. Deadline to remove comments from bucket4 was set as Sunday, 13 February 2022 AOE.

Chair reminded participants to register for the IEEE 802.3 March 2022 Plenary meeting series.

Chair reminded participants of the start of the next meeting on Tuesday, 15 February. (See: https://www.ieee802.org/3/calendar.html)

Chair reminded participants of the 3 deferred topics and to please watch the email reflector for when those topics would be inserted back into the agenda.

Meeting break at ~10:05 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 15, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Proposed Agenda:
- Approval of the Agenda
- IEEE Participation Requirements reminder
- IEEE Copyright reminder
- IEEE Patent Policy reminder
- Task Force Status
- Comment Resolution
    - Resolve bucket4

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:30 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair.
(Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_05_0122.pdf

Chair noted that the agenda would cover 15 and 16 February.

Chair reminded participants that Task Force attendance would be taken from the webex logs. Chair noted that the attendance for the IEEE 802.3 Working Group would be taken from the IEEE Meeting Attendance Tool.

The chair reminded participants to indicate full names and employer/affiliation correctly for the meeting minutes. Reminded participants to mute lines when not speaking and reviewed the steps to unmute.

Chair asked if there was objection to approving the shown agenda.   No one responded. The agenda was approved.

Chair reviewed the slide with the Participation requirements.

Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides.

Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair noted that the editorial team prepared a set of proposed responses to comments deemed non-controversial in "bucket4". (see: https://www.ieee802.org/3/ck/comments/draft3p0/8023ck_D3p0_comments_proposed_bucket4.pdf) Chair did not receive requests to pull any comments from bucket4 prior to the deadline.

Motion #3:

Move to:
Adopt the proposed responses in
  ● 8023ck_D3p0_comments_proposed_bucket4.pdf
M: Howard Heck
S: Adee Ran
Technical (>=75%)
Results: Motion passed by unanimous consent

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_05_0122.pdf
  ● It was noted that the comment resolution agenda was subject to change.
  ● Approximately 45 comments remain to be addressed on the floor.

Comment resolution began.

Straw Poll #13:

I support removing the box with text "VNA" from figures 120G-6, 120G-7, 120G-9, and 120G-10.
  ● Yes

- No

Results: Y: 13 , N: 9
(see comment #i-26)

Chair noted that Straw Poll #13 was a decision straw poll.

Chair noted there was a late contribution related to comment #i-71 based on offline consensus building. (see: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_04_0122.pdf) Chair asked if there was an objection to hearing the presentation. No one responded.

Presentation #4:

"Supporting material for comment i-71 ", Adee Ran
See: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_04_0122.pdf
- Discussed the proposed changes on slide 7.

Consensus Discussion Slides - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_02c_0122.pdf
- Changes were made and saved as version '02c'

Break at ~8:37 a.m. Resumed at ~8:50 a.m.

Presentation #5:

"Module stressed input loss calibration and other loss curves ", Piers Dawe
See: https://www.ieee802.org/3/ck/public/22_01/dawe_3ck_02a_0122.pdf
- Updated version '02a' with new slide and supporters.
- It was noted that slide 11 was the new slide.
- On slide 11, it was noted that the blue line is the sum of the red line and the green line.

Chair reminded participants to build consensus offline.

Chair reminded participants of the start of the next meeting on Wednesday, 16 February at 6:30 a.m. Pacific. (See: https://www.ieee802.org/3/calendar.html) Comment resolution would begin with Cl 163, then big ticket/cross clause topics, then clause 162.

Chair reminded participants of the deferred topics including 'asymmetric host loss' and 'J3u methodology' on the agenda.

Chair noted that there were several late presentations associated with comments on the topics of J3u, RX RITT and TX SNDR. (see:

https://www.ieee802.org/3/ck/public/22_01/rysin_3ck_01a_0122.pdf and
https://www.ieee802.org/3/ck/public/22_01/ran_3ck_02_0122.pdf and
https://www.ieee802.org/3/ck/public/22_01/ran_3ck_03_0122.pdf)

Meeting break at ~10:35 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 16, 2022

Prepared by Kent Lusted and Beth Kochuparambil

Continue approved agenda from 15 February.

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:30 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair. (Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation: https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_05_0122.pdf

Chair reminded participants that Task Force attendance would be taken from the webex logs.

Chair reviewed the slide with the Participation requirements. Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides. Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair noted that there were several late presentations associated with comments on the topics of J3u, RX RITT and TX SNDR. (see: https://www.ieee802.org/3/ck/public/22_01/rysin_3ck_01a_0122.pdf and https://www.ieee802.org/3/ck/public/22_01/ran_3ck_02_0122.pdf and https://www.ieee802.org/3/ck/public/22_01/ran_3ck_03_0122.pdf)

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_06_0122.pdf
- ● It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Consensus Discussion Slides - Phil Sun

See: https://www.ieee802.org/3/ck/public/22_01/sun_3ck_01_0122.pdf

Mike Dudek withdrew comment #236.

Straw Poll #14:

I support P802.3ck specifying multiple CR host types as proposed in comment i-170.
- Yes
- No
- Abstain

Results: Y: 8 , N: 31 , A: 2

(see comment #i-170)

Chair noted that Straw Poll #14 was a decision straw poll.

Consensus Discussion Slides - Kent Lusted

See: https://www.ieee802.org/3/ck/public/22_01/lusted_3ck_03_0122.pdf

Straw Poll #15:

For CR, KR, C2M, and C2C, I support clarifying the ground connections in the figures and/or text.
- Yes
- No

Results: Y: 20 , N: 7

(see comment #i-55)

Chair noted that the result of Straw Poll #15 would determine the direction to take with comments #i-55, i-61, i-66, i-67. If the straw poll showed support, these comments would be deferred to enable offline consensus building with the solution details.

During the discussion of topic shared ground connection, the comment resolution group agreed to defer resolution of the comments #i-55, i-61, i-66, i-67 related to the topic until the week of 22-23 February.

Consensus Discussion Slides - Kent Lusted

See: https://www.ieee802.org/3/ck/public/22_01/lusted_3ck_03_0122.pdf

Break at ~8:32 a.m. Resumed ~8:44 a.m.

During the discussion of comment i-173 related to TX jitter, the comment resolution group agreed to defer resolution of the comment related to the topic until the week of 22-23 February.

Chair noted the presentation from Alex Rysin was a late contribution. (see: https://www.ieee802.org/3/ck/public/22_01/rysin_3ck_01b_0122.pdf) She asked if there was objection to hearing the late presentation. No one responded.

Presentation #6:

"J3u Measurement for CL162 ", Alex Rysin
See: https://www.ieee802.org/3/ck/public/22_01/rysin_3ck_01b_0122.pdf
- There was a request to modify the last sentence on slide 18. Author to provide updated version '01b'.
- Discussed the impact of the oscilloscope noise on the measurement.
- On slide 15, milli-UI is the x-axis and mV is the y-axis.
- Discussed the calculation method on slide 13.

Straw Poll #16:

I support resolving comments i-156 and i-171 as follows: (chicago rules)
- A: no change
- B: relax the specification in some way
- C: measure only on transitions between levels 0 and 3
- D: specify that measurement noise effects should be factored out (non-prescriptive)
- E: combination of C and D

Results: A: 4, B: 12,   C: 14,   D: 17, E: 18
(See comment i-156)

Straw Poll #17:

I support resolving comments i-156 and i-171 as follows: (choose one)
- A: no change

- B: relax the specification in some way
- C: measure only on transitions between levels 0 and 3
- D: specify that measurement noise effects should be factored out (non-prescriptive)
- E: combination of C and D

Results: A: 2, B: 5, C: 5,   D: 6,   E: 12

(See comment i-156)

Straw Poll #18: - Canceled

I support resolving comment i-157 & i-171 using option E with a combination of (a) measure only on transitions between levels 0 and 3 and (b) specify that measurement noise effects should be factored out (non-prescriptive).

- A: Yes
- B: No

(See comment i-156)

During voting on Straw Poll #18, clarifying questions/discussion brought out that multiple attendees had a different understanding of the straw poll. Chair announced that a different, more clear approach may be better suited and asked if there was opposition to canceling the strawpoll. One objection was voiced. Chair canceled the straw poll in lieu of the one objection.

Straw poll #19:

I support specifying for CR and KR J3u that measurement noise effects should be factored out (non-prescriptive)

- A: Yes
- B: No

Results: A: 28, B: 2

(See comment i-156)

While taking straw poll #19, it was noted that the straw poll was for CR/KR j3u measurement only, but would not preclude expanding the action to other clauses, if there was consensus to do so.

Straw poll #20:

I support J3u changing methodology as follows (chicago rules)

- A: no change
- B: relax the specification in some way
- C: measure only on transitions between levels 0 and 3

Results: A: 12, B: 16, C: 14

(See comment i-156)

During the discussion of comment #i-156 and #i-171 on TX J3u, the comment resolution group agreed to defer resolution of the comment related to the topic until the week of 22-23 February.

Chair reminded participants of the start of the next meeting on Tuesday, 22 February at 6:30 a.m. Pacific. (See: https://www.ieee802.org/3/calendar.html)

Meeting broke at ~10:35 am.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 22, 2022

Prepared by Beth Kochuparambil and Kent Lusted

Proposed Agenda:
- Approval of the Agenda
- IEEE Participation Requirements reminder
- IEEE Copyright reminder
- IEEE Patent Policy reminder
- Task Force Status
- Comment Resolution
    - See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_07_0122.pdf
- Closing business

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:30 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair.
(Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_07_0122.pdf

Chair noted that the agenda would cover 22 and 23 February.

Chair reminded participants that Task Force attendance would be taken from the webex logs.
Chair noted that the attendance for the IEEE 802.3 Working Group would be taken from the
IEEE Meeting Attendance Tool.

The chair reminded participants to indicate full names and employer/affiliation correctly for the
meeting minutes. Reminded participants to mute lines when not speaking and reviewed the
steps to unmute.

Chair asked if there was objection to approving the shown agenda. No one responded. The agenda was approved.

Chair reviewed the slide with the Participation requirements.

Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides.

Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair noted that she intends to let Wednesday's meeting run beyond the targeted 10:30am PST ending time, if needed to complete Task Force business.

Chair also noted that she received feedback on the preliminary minutes indicating an error in the text of Straw Poll #16 and #17. (see: https://www.ieee802.org/3/ck/public/22_01/minutes_3ck_0122_part6.pdf) The straw poll counts were correct but the text was transcribed from the virtual meeting tool incorrectly. The text was corrected.

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_07_0122.pdf
- It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Break at ~8:30 a.m. Resumed at ~8:42 a.m.

Presentation #7:

"Common mode return loss limits ", Piers Dawe
See: https://www.ieee802.org/3/ck/public/22_01/dawe_3ck_04_0122.pdf
- Discussed the graph shown on slide 9

Straw Poll #21:

I support changing the CR TX RLcc as proposed in the suggested remedy in comment i-178.

- Yes
- No

Results: Y: 9 , N: 10

(see comment i-178)

Chair noted that straw poll #21 was a decision straw poll.

Straw Poll #22:

I support changing the CA RLcc as proposed in the suggested remedy in comment i-181.

- Yes
- No

Results: Y: 10 , N: 10

(see comment i-181)

Chair noted that straw poll #22 was a decision straw poll.

Presentation #8:

"Proposal for Figure 162 5 NSD(f)constraints ", Piers Dawe
See: https://www.ieee802.org/3/ck/public/22_01/dawe_3ck_01_0122.pdf

- No questions

Consensus Discussion Slides - Howard Heck

See: https://www.ieee802.org/3/ck/public/22_01/heck_3ck_01b_0122.pdf

Straw Poll #23:

I support adding the high-pass filter H_HP curve to the Figure 162-5.

- Yes
- No

Results: Y: 6 , N: 14

Chair noted that straw poll #23 was a decision straw poll.

Chair noted that there was a late presentation from Adee Ran on the topic of RX RITT. (see: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_02_0122.pdf) Chair asked if there was objection to hearing the late presentation. No one responded.

Presentation #9:

"Interpretation of noise injection in RIT test calibration (162.9.4.3.3) ", Adee Ran
See: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_02a_0122.pdf
- Updated version '02a' with editorial changes.
- Discussed the procedure on slide 5.

Chair reminded participants of the start of the next meeting on Wednesday, 23 February at 6:30 a.m. Pacific. (See: https://www.ieee802.org/3/calendar.html)

Chair noted that she intends to let the 23 February meeting run beyond the targeted 10:30am Pacific end time, if needed to complete Task Force business.

Chair reminded participants that attendance at any of the IEEE 802.3 meetings during the March 2022 plenary (March 7-17) requires registration and paying a meeting fee. The next meeting registration deadline was Friday, February 25, 2022 (see: https://www.ieee802.org/3/100GEL/email/msg00908.html)

Meeting break at ~10:35 a.m.

IEEE P802.3ck 100 Gb/s Electrical Lane Task Force – February 23, 2022

Prepared by Beth Kochuparambil and Kent Lusted

Continue approved agenda from 22 February.

Presentations posted at: https://www.ieee802.org/3/ck/public/22_01/index.html

Meeting began at ~6:30 a.m. Pacific by Beth Kochuparambil, IEEE 802.3ck Task Force Chair. (Note: all times are Pacific time zone unless otherwise indicated)

Meeting began with the agenda presentation
https://www.ieee802.org/3/ck/public/22_01/agenda_3ck_07_0122.pdf

Chair reminded participants that Task Force attendance would be taken from the webex logs.

Chair reviewed the slide with the Participation requirements.

Chair asked if anyone participating had not read the copyright slide set – no one responded. Chair showed the IEEE-SA copyright slides.

Chair asked if anyone participating had not read the patent slide set – no one responded. Chair showed the patent policy slides and did the call for Potentially Essential Patents – no one responded.

Chair reviewed the ground rules. Chair called for members of the press. No one responded.

Chair noted that she intends to let the meeting run beyond the targeted 10:30am Pacific end time, if needed to complete Task Force business.

Common Resolution Agenda - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/comagenda_3ck_07_0122.pdf
- ● It was noted that the comment resolution agenda was subject to change.

Comment resolution began.

Chair noted that there was a late presentation from Adee Ran on the topic of SNR_TX and SNDR. (see: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_03a_0122.pdf) Chair asked if there was an objection to hearing the presentation. No one responded.

Presentation #10:

"Proposed changes to SNR_TX and SNDR ", Adee Ran
See: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_03a_0122.pdf
- Author noted an error on slide 3 with the P_max/c_0 term in SNDR. Author to provide updated version '03a'.
- Discussed the need for measured data supporting the proposal.

Straw Poll #24:

I support adopting SNDR and sigma_tx calculation as proposed on slide 3 of ran_3ck_03a_0122.
- Yes
- No
- Need more information

Results: Y: 7   , N: 2   , NMI: 20
(see comment i-53)

Chair noted that there was a late presentation from Adee Ran on the topic of J3u as a result of consensus building. (see: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_05a_0122.pdf)
Chair asked if there was an objection to hearing the presentation. No one responded.

Presentation #10:

"Addressing J3u measurement issues ", Adee Ran
See: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_05a_0122.pdf
- Discussed the changes outlined on page 6. It was noted that the terms $S0\_1$ and $S0\_2$ are in the base specification, Annex 120D.3.1.8.1
- The proposal would be a normative requirement to meet both J3u_03 and J3u.

During the resolution of comment i-156, it was noted that there was a typo in ran_3ck_05a_0122 slide 6 with respect to J4 and J4u values. The values were in the incorrect order. Author submitted an updated presentation version '05b' with the correction.   (see: https://www.ieee802.org/3/ck/public/22_01/ran_3ck_05b_0122.pdf)

Break at ~8:25 a.m. Resumed at ~8:35 a.m.

Consensus Discussion Slides - Matt Brown

See: https://www.ieee802.org/3/ck/public/22_01/brown_3ck_01b_0122.pdf
- Changes were made to slide 15 based on consensus discussions. Saved as version '01b'

The Chief Editor noted that he received feedback from Jodi Haaz with IEEE-SA regarding a few errors in the posted closed comments (i-42, 210, 144, 146, 145, 147, 148, 150, 149, 143, 142) that should be corrected. He asked if there was objection to reopening those comments for correction.

The Chief Editor asked if there was objection to reopening comment i-42 to correct the grammar in the disposition text. No one responded. Changes were made and saved.

The Chief Editor asked if there was objection to reopening comment i-210 to correct the disposition status from REJECT to AIP. No one responded. Changes were made and saved.

The Chief Editor noted that a series of comments (144, 146, 145, 147, 148, 150, 149, 143, 142) had extra text in the response implying a change to the draft when the comment had a REJECT disposition status. The extra text does not follow IEEE SA Balloting and Comment Resolution Process Guidelines. He asked if there was objection to reopening these comments to correct the disposition detail text. No one responded. Changes were made and saved.

Motion #4:

Move that the IEEE P802.3ck Task Force generate Draft 3.1 for SA Recirculation from D3.0 and closed comments.
M: Jim Weaver
S: Mike Dudek
Technical (>=75%)
Results: Motion passed by unanimous consent

Piers Dawe abstained from the vote on motion #4.

Chair reviewed the proposed liaison response to OIF. (see: https://www.ieee802.org/3/ck/public/22_01/IEEE_802d3_to_OIF_CEI_0122_draft.pdf) No

changes were made.

Reviewed the proposed liaison to T11.2. (see:
https://www.ieee802.org/3/ck/public/22_01/IEEE_802d3_to_T11-2_0122_draft.pdf) Changes
were made and saved as version 'draft1' (see:
https://www.ieee802.org/3/ck/public/22_01/IEEE_802d3_to_COBO_0122_draft1.pdf).

Reviewed the proposed liaison to COBO. (see:
https://www.ieee802.org/3/ck/public/22_01/IEEE_802d3_to_COBO_0122_draft.pdf) Changes
were made and saved as version 'draft1' (see:
https://www.ieee802.org/3/ck/public/22_01/IEEE_802d3_to_T11-2_0122_draft1.pdf).

Motion #5:

Move that the IEEE P802.3ck Task Force approve the following liaisons with editorial license
granted to the WG Chair (or his appointed agent) as liaison communications from the IEEE 802.3
WG to OIF, T11-2, and COBO.
- IEEE_802d3_to_OIF_CEI_0122_draft.pdf
- IEEE_802d3_to_T11-2_0122_draft1.pdf
- IEEE_802d3_to_COBO_0122_draft1.pdf

M: Mike Dudek
S: Nathan Tracy
Technical (>= 75%)
Results: Motion passed by unanimous consent

Chair reviewed the future schedule. The next SA ballot would be announced over the email
reflector.

Chair noted that she intends to have a Task Force meeting during the March 2022 Plenary
meeting series to facilitate consensus building. Details would be announced over the email
reflector.

Chair thanked the participants and editorial team for their work to resolve comments and
progress the draft.

Meeting adjourned at ~9:30 a.m.
