- IEEE SA Copyright Policy
- IEEE SA Patent Policy

Chair asked if anyone needed to review the policies at that time – there were no requests to do so.

Chair did call for Potentially Essential Patents, and no one came forward.

On Slide #3 it was noted that “Output power with Tx disabled” noted in items for further study is actually already in the table. Presenter indicated he will provide an update to the presentation (noted above).

There was general discussion of presentation.

It was noted that the topic of the “black link” has been discussed previously, and the chair noted that individuals should refer to those presentations. Chair noted the history of the IEEE P802.3cw Task Force and some of the presentations related to the “black link” may have been given during the IEEE P802.3cn Task Force. Chair will review the IEEE P802.3cn webpage to identify key presentations in that project that relate to IEEE P802.3cw.
