P802.3dj D1.0
Comment Resolution Agenda

Matt Brown, Alphawave, P802.3dj Editor-in-Chief
Gary Nichol, Cisco, Logic Track Lead Editor
Adee Ran, Cisco, Electrical Track Lead Editor
Tom Issenhuth, Huawei, Optical Track Lead Editor

Introduction

- This slide package provides the comment agenda for the Draft 1.0 comment resolution.
- Comment resolution order is shown in the following slides.
- The agenda is subject to change as required.
- Comments/topics that appear to be converging but require some offline consensus building might be “parked” and addressed at a later date in this CRG meeting series.
- Electrical comments/topics are likely going to require the entire 8 days to complete so for any spare time on task force days these topics will have priority.
- Parallel meetings may be running for the three tracks. Individuals are encouraged to review the topics in each track to understand if there are any conflicts.

Comment resolution

Approach to comment resolution (same as 802.3df)

The following approach will be utilized for resolving comments…

- Review the proposed response
  - Discuss and refine as needed and attempt to close without objection using **direction** straw polls, as necessary.
  - If no more than two objections (including commenter) to proposed response then consider it to be consensus and close comment.
  - If more than two objections then use **decision** straw poll(s) to move forward.
- Use of a **direction** straw poll to determine a direction
  - Use the result of the direction straw poll(s) to determine consensus, refine the proposed response, or to craft a decision straw poll.
- Use of a **decision** straw poll to make a final decision.
  - The decision straw poll winner is the option that has more than 50% support.
  - Close the comment based on the winner of the decision straw poll(s).
- The editorial team may provide presentations as needed to aid in the resolution of comments.
- Individuals are reminded to review "IEEE SA Balloting and Comment Resolution Process Guidelines"
  https://standards.ieee.org/wp-content/uploads/import/governance/revcom/guidelines.pdf
