Objectives for the comment resolution meeting

- Respond to all comments against D1.3
- Generate D1.4 and initiate fifth task force review

Approach to comment resolution

The following approach will be utilized for resolving comments…

❖ Review the proposed response
  ➢ Discuss and refine as needed and attempt to close without objection using **direction** straw polls, as necessary.
  ➢ If no more than two objections (including commenter) to proposed response then consider it to be consensus and close comment.
  ➢ If more than two objections then use **decision** straw poll(s) to move forward.

❖ Use of a **direction** straw poll to determine a direction
  ➢ Use the result of the direction straw poll(s) to determine consensus, refine the proposed response, or to craft a decision straw poll.

❖ Use of a **decision** straw poll to make a final decision.
  ➢ The decision straw poll winner is the option that has more than 50% support.
  ➢ Close the comment based on the winner of the decision straw poll(s).

❖ The editorial team may provide presentations as needed to aid in the resolution of comments.

❖ Individuals are reminded to review "IEEE SA Balloting and Comment Resolution Process Guidelines"
