

Project Timeline

David Ofelt
HPE

Project Timeline

Proposing a pre-release series of drafts reviewed by the (extended) editorial team

Expectation is that the process will be smooth and we won't need a lot of drafts

Planning for

- Two Task Force ballots (D1.x)

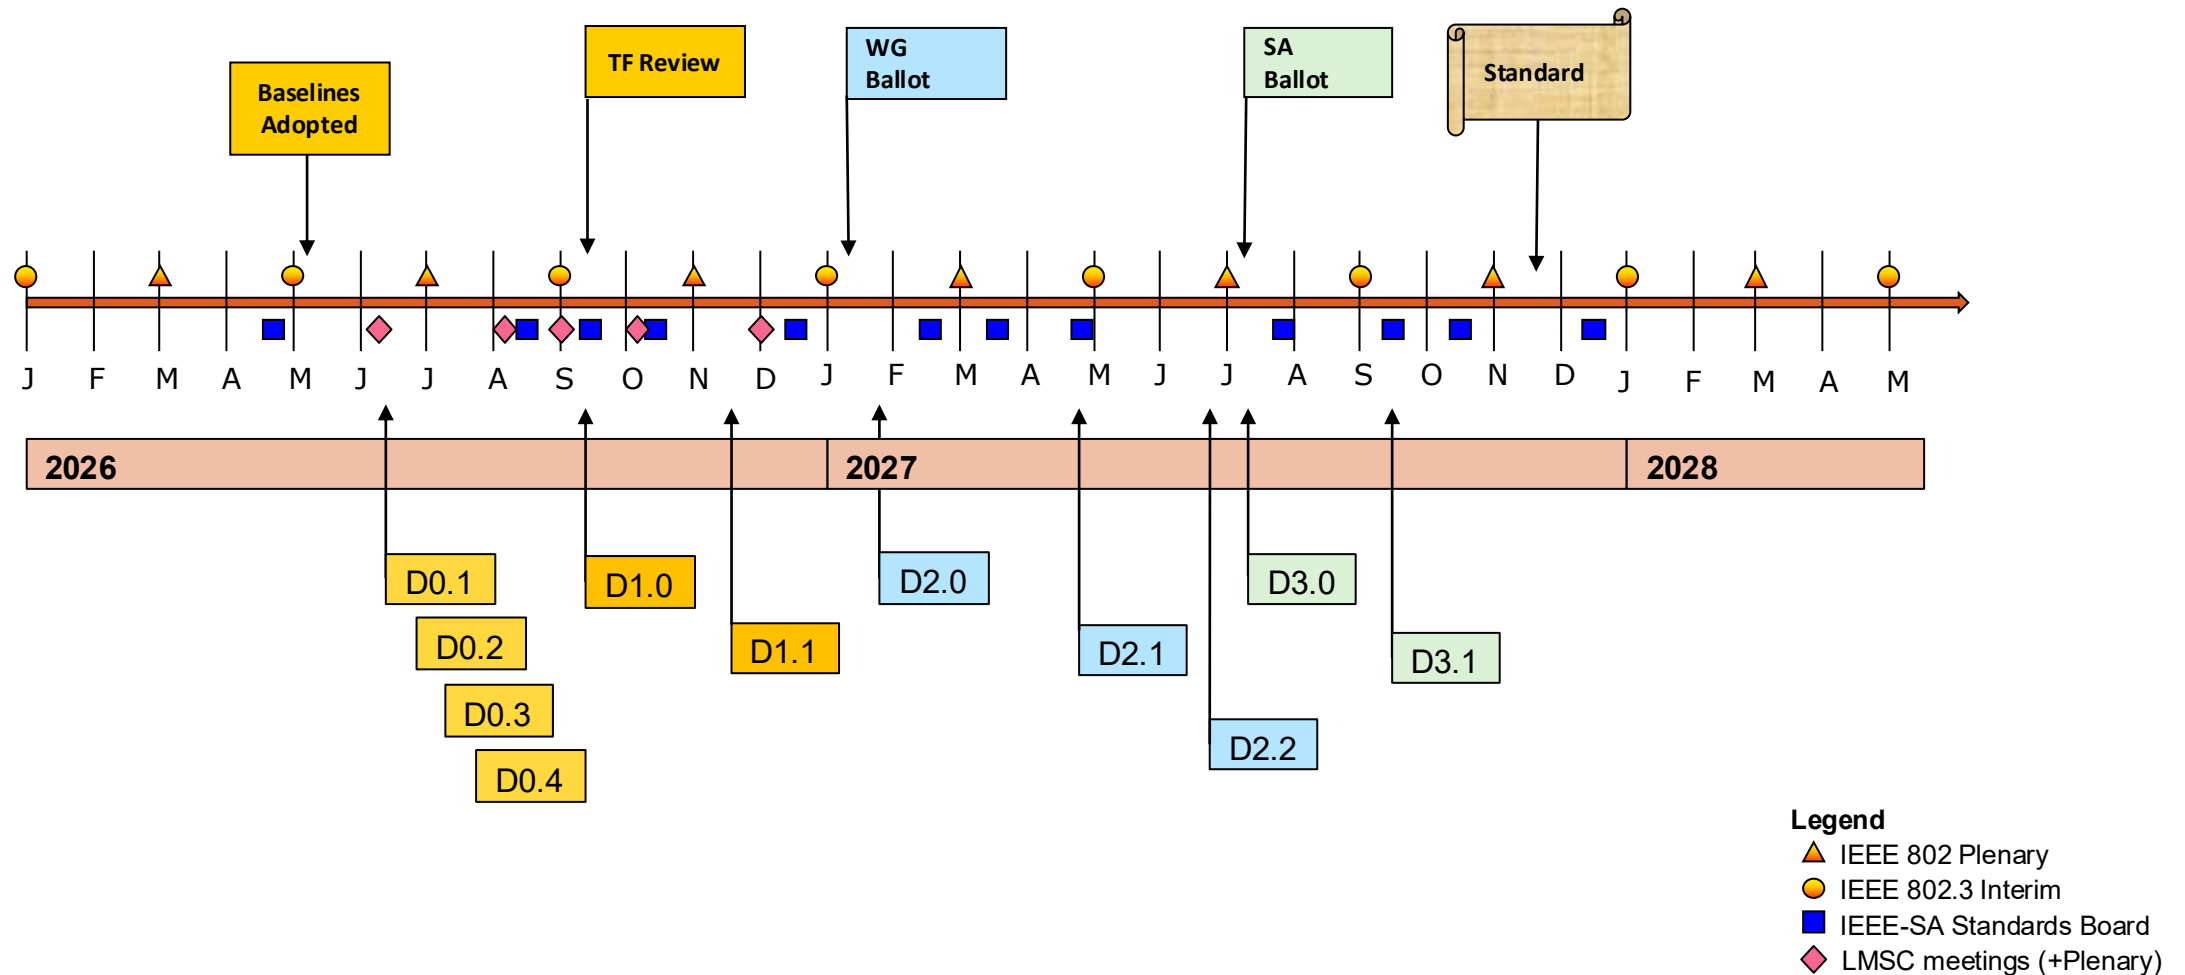

- Three Working Group ballots (D2.x)

- Two Standards Association ballots (D3.x)

Currently planning for most of comment resolution in electronic meetings

Should free up useful time in the face-to-face meetings

Proposed IEEE 802.3dt Timeline

Motion

Move to adopt side #3 of

https://www.ieee802.org/3/dt/public/26_07/ofelt_3dt_01_2607.pdf as the project timeline for IEEE P802.3dt.
