IEEE P802.3dm Task Force
Activities this week

Met Tuesday afternoon, all day Wednesday, and Thursday morning

- Heard 25 presentations
- Approved new baselines, text for Clause 30 and Clause 45

- Straw polls were held to determine the "temperature" of the group
  - There is still not a 75% consensus for either duplexing method
- The group is considering options for advancing the draft

Motion

Move that the IEEE 802.3 Working Group approve the additional objective adopted by the Task Force in May 2025:

Do not preclude using the low data rate signal to extract the timing reference for the high-data rate transmitter.

M: Made on behalf of the Task Force
