Subject: Progress Update on IEEE P802.3ct 100 Gb/s over DWDM Systems Task Force

Approval: Agreed to at IEEE 802.3 plenary teleconference meeting, 11th March 2021

Dear Mr Knittle,

Dear Mr Trowbridge and members of ITU-T Study Group 15,

The IEEE 802.3 Ethernet Working Group would like to inform CableLabs and ITU-T Study Group 15 and its members of the progress of the IEEE P802.3ct 100 Gb/s over DWDM systems project. The Task Force's webpage is at the following URL:

<http://www.ieee802.org/3/ct/index.html>.

¹ This document solely represents the views of the IEEE 802.3 Working Group and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

Currently, the second IEEE Standards Association Ballot recirculation on D3.2 is scheduled to be completed on 25th March 2021, at which point any submitted comments will need to be considered. While a third recirculation may be necessary, it is anticipated that the IEEE Standards Association Ballot is nearing completion and the draft will be submitted for consideration for approval by the IEEE SA Standards Board in June 2021.

We are happy to provide you with the current copy of IEEE P802.3ct draft D3.2.

We appreciate your cooperation in past efforts and look forward to continued dialogue with CableLabs and ITU-T Study Group 15. Such interactions between industry bodies only serve to improve the overall community.

Sincerely,
David Law
Chair, IEEE 802.3 Ethernet Working Group
