# IEEE P802.3.1b/P802.3.2a

## Activities during May 2023 interim

Held a joint meeting for P802.3.1b and P802.3.2a projects

Resolved comments against P802.3.1b D1.2 and P802.3.2a D1.2 and moved to generate D1.3 for both projects to start the 3rd IEEE 802.3 Working Group recirculation ballot: 15 days for P802.3.1b and 30 days for P802.3.2a.

Changes to P802.3.1b are primarily editorial – we’re ready to go to IEEE SA ballot after D1.3 recirculation completes.

Expecting more technical changes to P802.3.2a.

## Plans for next 2 months

---

Complete 3<sup>rd</sup> 802.3 WG recirculation for P802.3.1b and P802.3.2a

Hold virtual interim for P802.3.1b and resolve any received comments. If 3<sup>rd</sup> recirculation does come in clean, open IEEE SA ballot on D2.0.

Hold meetings of the ad-hoc (chaired by Peter Jones) formed for P802.3.2a group to progress Yang module style alignment and build consensus for new Yang modules

Meet in July 2024 as a joint Task Force and resolve any comments received by that time.
