Subject: Liaison to ITU-T SG15 regarding G.652  
Approval: Agreed at IEEE 802.3 interim meeting, Annapolis, MD, USA, 16 May 2024

Dear Mr Parsons and members of ITU-T SG15,

This liaison letter augments the information in our previous liaison letter sent from the IEEE 802.3 Plenary Meeting in Denver, CO, USA, on 14 March 2024.

Further progress has been made on the work that we shared in the earlier liaison letter. We would like to draw your attention to the updated contributions [parsons\\_3dj\\_01a\\_2405](#) and

---

<sup>1</sup> This document solely represents the views of the IEEE 802.3 Working Group and does not necessarily represent a position of the IEEE, the IEEE Standards Association, or IEEE 802.

[rodes\\_3dj\\_01a\\_2405](#), presented at our IEEE 802.3 Interim meeting from 13 to 16 May 2024 and would appreciate your feedback.

The next IEEE 802.3 plenary meeting will be in Montreal, QC, Canada from 15 to 18 July 2024. In addition, the joint ITU-T/IEEE workshop on 13 July 2024 will be an excellent opportunity for face-to-face discussions during the first session "Exploration of Optical PHYs Addressing 800 Gb/s and Beyond". We look forward to continued communications on this topic so that we can better align our work.

Sincerely,  
David Law  
Chair, IEEE 802.3 Ethernet Working Group
