Directions to IEEE 802.3 liaison officer to IEC TC 64/MT 2

Encourage referencing of ISO/IEC JTC 1/SC 25/WG 3 cabling standards (e.g., ISO/IEC 11801), rather than duplication of requirements in IEC 60364-5-52, unless IEC TC 64/MT 2 identifies missing requirements, which preferably should be communicated to ISO/IEC JTC 1/SC 25/WG 3 for addition to their cabling standards.

Support comments suggesting the addition of ELV DC power distribution over single-pair information and communications technology (ICT) cable infrastructure as a new part of IEC 60364 (e.g., 60364-7-717).

Promote alignment between IEC TC 64 (e.g., IEC 60364) and IEC TC 108 (e.g., IEC 62368) standards.

Motion

- Move that the IEEE 802.3 Working Group approve:
IEEE_802d3_to_IEC_TC64_0924_1_draft_D3p0.doc and
IEEE_802d3_to_IEC_TC64_0924_2_draft_D1p0.doc with editorial
license granted to the Chair (or his appointed agent) as liaison
communications from the IEEE 802.3 Working Group to ISO/IEC TC64
and the “Directions to IEEE 802.3 liaison officer to IEC TC 64/MT 2”
