	Proposed Resolution for IEEE 802 LMSC Policy and Procedure Revision Ballot
	on Creation of Operation Manual
Enon	- Matthew Sharman I MSC Vice Chair
From To:	n: Matthew Sherman, LMSC Vice Chair LMSC Executive Committee Date: 11/13/2008
Dura	tion:
Purp	ose: Partition existing P&P into a new P&P and an Operation Manual (OM) with modifications
Ratio	onale for proposed change:
curre mater resolu satisf only frequ gover with	Com has required that the material in our current P&P be modified to more closely follow the nt AudCom Baseline P&P. They have indicated the biggest issue for them is the amount of rial in our P&P, and that our current P&P is only approved through the end of 2008 pending ution of this issue. Creation of an LMSC OM will allow us to preserve our existing rules while Ying AudCom by moving them from our current P&P to the OM. AudCom has also stated we may update our P&P once per year. Creation of an LMSC OM allows us to update our rules more ently if required (as long as they don't conflict with the standing LMSC P&P and superior rnance). Other changes to our rules will be made as required to bring us in closer conformance the AudCom baseline P&P and correct other issues resulting from this partitioning of our rules.
Prop	osed Changes:
Repla	ace the existing LMSC P&P with the documents;
	Draft_LMSC_PaP_080817_Clean.pdf, and Draft_LMSC_OM_080817_Clean.pdf;
<mark>As p</mark> o	osted on the IEEE 802 web site at:
and	http://grouper.ieee.org/groups/802/PNP/2008-08/Draft_LMSC_PaP_080817_Clean.pdf http://grouper.ieee.org/groups/802/PNP/2008-08/Draft_LMSC_OM_080817_Clean.pdf.
	e changes are to take effect upon posting of the revised LMSC P&P by AudCom on the AudCom ite. The OM should be posted on the 802 website prior to being placed in effect.
