

802.18 RR-TAG Closing Report

- Report on November Plenary Meeting
- Objectives for the January Interim Meeting

Report on November Plenary Meeting

- **Held brief joint sessions with 802.11 TGg, TGh, and WNG SC**
- **Prepared and approved 1 regulatory filing for FCC**
 - 18-02-038d0_802_Rep_Cmts_ET-02-312.doc
- **Considered filing with Australian Communications Authority on Spread Spectrum Class License Changes**
 - Filing deadline was COB November 15 (Australia 1 day ahead of Hawaii)
 - Unable to meet filing deadline due to need for SEC approval
 - Made phone calls to ACA inquiring about late filing ... was informed that their Communications Act allows NO flexibility/discretion with respect to deadlines ☹
- **Made significant progress on 802.18 Operating Rules Draft**
 - Based on recent re-write/modifications of 802.11 operating rules as a starting point
- **Planned updates to 802.18 website regulatory resources**

Planned Objectives for the January Interim Meeting

- Hold joint meetings with 802.11 TGg, TGh, WNG SC (Others ???)
- Prepare regulatory documents as time permits (will prioritize at 802.18 opening plenary)
- Complete final draft of 802.18 operating rules for electronic submission to SEC for review and balloting prior to March 2003 802 Plenary, time permitting (?)
 - Plan to work via e-mail correspondence, with conference calls if necessary to further progress work between now and the January interim meeting
